NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

To Be Held at 8:00 a.m. Pacific Time on Wednesday, May 20, 2026

Dear Stockholders of Beyond Meat, Inc.:

The 2026 annual meeting of stockholders (the “Annual Meeting”) of Beyond Meat, Inc., a Delaware corporation (“Beyond Meat”), will be held virtually, via live webcast at www.virtualshareholdermeeting.com/BYND2026, on Wednesday, May 20, 2026 at 8:00 a.m. Pacific Time, for the following purposes, as more fully described in the accompanying proxy statement:

1. To elect three Class I directors to serve until our 2029 annual meeting of stockholders and until their successors are duly elected and qualified;
2. To ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the year ending December 31, 2026;
3. To hold an advisory (non-binding) vote to approve the compensation of our named executive officers; and
4. To transact such other business as may properly come before the Annual Meeting or any postponements, adjournments or continuations thereof.

Our board of directors has fixed the close of business on March 24, 2026 as the record date (the “Record Date”) for the Annual Meeting. Stockholders of record as of the Record Date are entitled to notice of and to vote at the Annual Meeting. Further information regarding voting rights and the matters to be voted upon is presented in the accompanying proxy statement.

On or about April 10, 2026, we expect to mail to our stockholders a Notice of Internet Availability of Proxy Materials (the “Notice”) containing instructions on how to access our proxy statement and our annual report. The Notice provides instructions on how to vote and includes instructions on how to receive a paper copy of our proxy materials by mail. The proxy statement and our annual report can be accessed directly at the following Internet address: www.proxyvote.com. You will be asked to enter the sixteen-digit control number located on your Notice or proxy card.

We appreciate your continued support of Beyond Meat.

By Order of the Board of Directors,
Ethan Brown
Founder, President and Chief Executive Officer
El Segundo, California
April 10, 2026

YOUR VOTE IS IMPORTANT. Whether or not you plan to attend the virtual Annual Meeting, you are urged to vote and submit your proxy by following the voting procedures described in the proxy card. Even if you have voted by proxy, you may still vote during the meeting.

PROXY STATEMENT FOR 2026 ANNUAL MEETING OF STOCKHOLDERS

To Be Held at 8:00 a.m. Pacific Time on Wednesday, May 20, 2026

This proxy statement and form of proxy are furnished in connection with the solicitation of proxies by our board of directors for use at the 2026 annual meeting of stockholders (the “Annual Meeting”) of Beyond Meat, Inc., a Delaware corporation (“Beyond Meat” or the “company”), and any postponements, adjournments or continuations thereof. The Annual Meeting will be held virtually, via live webcast on Wednesday, May 20, 2026 at 8:00 a.m. Pacific Time. The Annual Meeting can be accessed via the Internet at www.virtualshareholdermeeting.com/BYND2026 where you will be able to attend and listen to the Annual Meeting live, submit questions and vote your shares electronically at the Annual Meeting. You will not be able to attend the Annual Meeting physically in person.

Our board of directors has fixed the close of business on March 24, 2026 as the record date (the “Record Date”) for the Annual Meeting. Stockholders of record as of the Record Date are entitled to notice of and to vote at the Annual Meeting. The Notice of Internet Availability of Proxy Materials (the “Notice”) containing instructions on how to access this proxy statement, the form of proxy and our annual report will be mailed on or about April 10, 2026 to all stockholders entitled to vote at the Annual Meeting.

Please read the entire proxy statement carefully. You may obtain additional information about the Company from documents we file with the Securities and Exchange Commission (“SEC”).

QUESTIONS AND ANSWERS ABOUT THE PROXY MATERIALS AND OUR ANNUAL MEETING

The information provided in the “question and answer” format below is for your convenience only. You should read this entire proxy statement carefully. Information contained on, or that can be accessed through, our website is not intended to be incorporated by reference into this proxy statement and references to our website address in this proxy statement are inactive textual references only.

Why are you holding a virtual Annual Meeting and how can stockholders attend?

We will be hosting the Annual Meeting via live webcast only. We believe hosting our Annual Meeting virtually helps to expand access, facilitate stockholder attendance, reduce costs, enable improved communication, and support the health and well-being of our stockholders and other meeting participants. It also reduces the environmental impact of our Annual Meeting. To participate in our virtual Annual Meeting, visit www.virtualshareholdermeeting.com/BYND2026 with your 16-digit control number included in the Notice, on your proxy card if you are a stockholder of record of shares of common stock, or included with your voting instructions received from your broker, bank or other nominee if you are a street name stockholder, as described below.

The Annual Meeting live webcast will begin promptly at 8:00 a.m. Pacific Time on Wednesday, May 20, 2026. Stockholders may vote and submit questions in advance of, or live during, the Annual Meeting by following the instructions and rules of conduct on the Annual Meeting website. We intend to answer questions that are pertinent to the company and the official business of the Annual Meeting during the Annual Meeting, subject to time constraints. We encourage you to access the meeting prior to the start time. Online check-in will begin at 7:45 a.m. Pacific Time, and you should allow ample time for the check-in procedures. The virtual Annual Meeting platform is fully supported across browsers (Microsoft Edge, Firefox, Chrome and Safari) and devices (desktops, laptops, tablets and mobile phones) running the most updated version of applicable software and plugins. Participants should ensure they have a strong Internet connection wherever they intend to participate in the Annual Meeting. Participants should allow plenty of time to log in and ensure that they can hear streaming audio prior to the start of the virtual Annual Meeting. If you encounter any difficulties accessing the virtual meeting during the check-in or meeting time, please call the technical support number that will be posted on the login page of the virtual meeting platform at www.virtualshareholdermeeting.com/BYND2026.

What matters am I voting on and how does the board of directors recommend that I vote?

PROPOSAL	BOARD OF DIRECTORS VOTING RECOMMENDATION
<p>PROPOSAL NO. 1</p> <p>The election of three Class I directors to serve until our 2029 annual meeting of stockholders and until their successors are duly elected and qualified.</p>	<p>FOR each director nominee</p>
<p>PROPOSAL NO. 2</p> <p>Ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the year ending December 31, 2026.</p>	<p>FOR</p>
<p>PROPOSAL NO. 3</p> <p>Advisory (non-binding) vote to approve the compensation of the company's named executive officers.</p>	<p>FOR</p>

Our board of directors has determined that each of the proposals is in the best interests of the Company and its stockholders and unanimously recommends that you vote **“FOR”** each of the director nominees named herein and **“FOR”** the approval of each of the other proposals.

Other than the three items of business described in this proxy statement, we are not aware of any other business to be acted upon at the Annual Meeting. If any additional matters are properly presented at the Annual Meeting, the persons named in the proxy card will have discretion to vote the shares of our common stock they represent in accordance with their own judgment on such matters.

Who is entitled to vote?

Holders of our common stock as of the close of business on the Record Date may vote at the Annual Meeting. As of the Record Date, there were 463,190,005 shares of our common stock outstanding. In deciding all matters at the Annual Meeting, each share of our common stock held by a stockholder on the Record Date will be entitled to one vote for each of the director nominees and one vote for each of the other proposals. We do not have cumulative voting rights for the election of directors.

Stockholders of Record: Shares Registered in Your Name

If shares of our common stock are registered directly in your name with our transfer agent, EQ Shareowner Services, you are considered the stockholder of record with respect to those shares, and the Notice was provided to you directly by us. As the stockholder of record, you have the right to grant your voting proxy and indicate your voting choices directly to the individuals listed on the proxy card or to vote virtually at the Annual Meeting. Throughout this proxy statement, we refer to these registered stockholders as “stockholders of record.”

Street Name Stockholders

If shares of our common stock are held on your behalf in a brokerage account or by a bank or other nominee, you are considered to be the beneficial owner of shares that are held in “street name,” and the Notice was forwarded to you by your broker, bank or other nominee, who is considered the stockholder of record with respect to those shares. As the beneficial owner, you have the right to direct your broker, bank or other nominee as to how to vote your shares in the manner provided in the voting instructions you receive from your broker, bank or other nominee. However, because a street name stockholder is not the stockholder of record, you may not vote your shares of our common stock electronically at the Annual Meeting unless you contact your broker, bank or other nominee and follow their procedures. Throughout this proxy statement, we refer to stockholders who hold their shares through a broker, bank or other nominee as “street name stockholders.”

Will a list of record stockholders as of the Record Date be available?

A list of stockholders of record as of the Record Date will be available in our office located at 888 N. Douglas Street, Suite 100, El Segundo, CA 90245, during regular business hours for a period of at least ten (10) days before the Annual Meeting.

What is a quorum?

A quorum is the minimum number of shares required to be present at the Annual Meeting to properly hold an annual meeting and conduct business under our amended and restated bylaws (“Bylaws”) and Delaware law. The presence in person or represented by proxy of the holders of one-third (1/3rd) of the voting power of the shares of stock issued and outstanding and entitled to vote at the Annual Meeting will constitute a quorum at the Annual Meeting. Abstentions and broker non-votes are counted as shares present and entitled to vote for purposes of determining a quorum.

What if a quorum is not present at the Annual Meeting?

If a quorum is not present at the Annual Meeting, the chairperson of the meeting is authorized by our Bylaws to adjourn the meeting to another time, date and place, without the vote of our stockholders.

What is the effect of giving a proxy?

Proxies are solicited by and on behalf of our board of directors. Ethan Brown (our President and Chief Executive Officer) and Teri L. Witteman (our Chief Legal Officer and Secretary) have been designated as proxy holders by our board of directors. When proxies are properly dated, executed and returned, the shares represented by such proxies will be voted at the Annual Meeting in accordance with the instructions of the stockholder. If no specific instructions are given, however, the shares will be voted in accordance with the recommendations of our board of directors as described in this proxy statement. If any matters not described in this proxy statement are properly presented at the Annual Meeting, the proxy holders will use their own judgment to determine how to vote the shares. If the Annual Meeting is postponed, adjourned or continued, the proxy holders can vote the shares on the new, adjourned or continued Annual Meeting date as well, unless you have properly revoked your proxy instructions, as described below.

How many votes are needed for approval of each proposal?

PROPOSAL	VOTE NEEDED FOR APPROVAL AND EFFECT OF ABSTENTIONS AND BROKER NON-VOTES
<p>PROPOSAL NO. 1 The election of three Class I directors to serve until our 2029 annual meeting of stockholders and until their successors are duly elected and qualified.</p>	<p>A director nominee must receive more votes cast “FOR” such director nominee’s election than votes cast “AGAINST” such director nominee’s election (with abstentions not counted as a vote cast either for or against that director nominee’s election and thus will have no effect on the outcome of this proposal). Broker non-votes, if any, will also have no effect on the outcome of this proposal.</p>
<p>PROPOSAL NO. 2 Ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the year ending December 31, 2026.</p>	<p>Affirmative vote of the holders of a majority of the voting power of the shares of our common stock entitled to vote on Proposal No. 2 that are present in person (which includes by remote communication) or represented by proxy at the Annual Meeting and are voted for or against such proposal. Abstentions are not considered votes for or against this proposal and thus will have no effect on the outcome of this proposal. Broker non-votes, if any, will also have no effect on the outcome of this proposal.</p>
<p>PROPOSAL NO. 3 Advisory (non-binding) vote to approve the compensation of the company’s named executive officers.</p>	<p>Affirmative vote of the holders of a majority of the voting power of the shares of our common stock entitled to vote on Proposal No. 3 that are present in person (which includes by remote communication) or represented by proxy at the Annual Meeting and are voted for or against such proposal. Abstentions are not considered votes for or against this proposal and thus will have no effect on the outcome of this proposal. Broker non-votes, if any, will also have no effect on the outcome of this proposal. However, because this proposal is a non-binding advisory vote, the result will not be binding on our board of directors or the company.</p>

Voting results will be tabulated and certified by the inspector of election appointed for the Annual Meeting.

How do I vote?

If you are a stockholder of record, there are five ways to vote:

- By Internet at www.proxyvote.com, 24 hours a day, seven days a week, until **11:59 p.m. Eastern Time on May 19, 2026** (have your Notice or proxy card in hand when you visit the website);
- By toll-free telephone at 1-800-690-6903 until **11:59 p.m. Eastern Time on May 19, 2026** (have your Notice or proxy card in hand when you call);
- By scanning the QR code in your Notice or proxy card with your mobile device until **11:59 p.m. Eastern Time on May 19, 2026**;
- By completing and mailing your proxy card (if you received printed proxy materials) to be received prior to the Annual Meeting; or
- By attending the virtual meeting by visiting www.virtualshareholdermeeting.com/BYND2026, where you may vote electronically and submit questions during the Annual Meeting. Please have your Notice or proxy card in hand when you visit the website.

If you are a street name stockholder, you will receive voting instructions from your broker, bank or other nominee. You must follow the voting instructions provided by your broker, bank or other nominee in order to direct your broker, bank or other nominee on how to vote your shares. As discussed above, if you are a street name stockholder, you may not vote your shares electronically at the Annual Meeting unless you follow the procedures required by your broker, bank or other nominee.

VOTING VIA THE INTERNET, MOBILE DEVICE OR BY TELEPHONE IS FAST AND CONVENIENT, AND YOUR VOTE IS IMMEDIATELY CONFIRMED AND TABULATED. VOTING EARLY WILL HELP AVOID ADDITIONAL SOLICITATION COSTS AND WILL NOT PREVENT YOU FROM VOTING ELECTRONICALLY DURING THE ANNUAL MEETING IF YOU WISH TO DO SO.

If you have questions about the matters described in this proxy statement, how to submit your proxy or if you need additional copies of this proxy statement or the proxy card you should contact MacKenzie Partners, Inc. (“MacKenzie”), our proxy solicitor, toll-free at (800) 322-2885.

Can I change my vote?

Yes. If you are a stockholder of record, you can change your vote or revoke your proxy any time before the Annual Meeting by:

- entering a new vote by Internet, mobile device or by telephone (by 11:59 p.m. Eastern Time on May 19, 2026);
- completing and returning a later-dated proxy card;
- notifying the secretary of Beyond Meat, Inc., in writing, at Beyond Meat, Inc., 888 N. Douglas Street, Suite 100, El Segundo, California 90245; or
- attending and voting electronically at the virtual Annual Meeting (although attendance at the Annual Meeting will not, by itself, revoke a proxy).

If you are a street name stockholder, your broker, bank or other nominee can provide you with instructions on how to change your vote.

Why did I receive a Notice of Internet Availability of Proxy Materials instead of a full set of proxy materials?

In accordance with the rules of the SEC, we have elected to furnish our proxy materials, including this proxy statement and our annual report, primarily via the Internet. Internet distribution of our proxy materials is designed to expedite receipt by stockholders, lower the cost of the Annual Meeting and conserve natural resources. The Notice containing instructions on how to access this proxy statement is first being mailed on or about April 10, 2026 to all stockholders entitled to vote at the Annual Meeting.

Stockholders may request to receive all future proxy materials in printed form by mail or electronically by email by following the instructions contained in the Notice. We encourage stockholders to take advantage of the availability of our proxy materials on the Internet to help reduce the environmental impact and the cost of our annual meetings of stockholders.

How are proxies solicited for the Annual Meeting?

We have retained the services of MacKenzie to aid in the solicitation of proxies and will pay MacKenzie a base fee of \$16,000 for these services, plus any related costs and expenses. We will bear the total expense of the solicitation that will include, in addition to the amounts paid to MacKenzie, amounts paid for printing and postage and to reimburse banks, brokerage firms and others for their expenses in forwarding proxy solicitation materials. Although the principal distribution of proxy materials will be through the Internet, solicitation of proxies will also be made by mail. In addition, our directors and employees may also solicit proxies in person, by telephone or by other means of communication. Our directors and employees will not be paid any additional compensation for soliciting proxies.

How may my broker, bank or other nominee vote my shares if I fail to provide timely directions?

Brokers, banks and other nominees holding shares of our common stock in street name for their customers are generally required to vote such shares in the manner directed by their customers. In the absence of timely directions, your broker, bank or other nominee may have discretion to vote your shares on our sole “routine” proposal: the proposal to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the year ending December 31, 2026. Absent direction from you, your broker, bank or other nominee will not have discretion to vote on the election of directors and the advisory (non-binding) vote to approve the compensation of our named executive officers, which are both “non-routine” matters. If the broker, bank or other nominee that holds your shares in street name returns a proxy card without voting on a non-routine proposal because it did not receive voting instructions from you on that proposal, this is referred to as a “broker non-vote.” Broker non-votes will be counted in determining whether a quorum exists at the Annual Meeting. The effect of broker non-votes on the outcome of each proposal to be voted on at the Annual Meeting is explained above under “—How many votes are needed for approval of each proposal?”

Who will count the votes obtained at the Special Meeting?

A representative of American Election Services, LLC, our inspector of election, will tabulate and certify the votes.

Where can I find the voting results of the Annual Meeting?

We will announce preliminary voting results at the Annual Meeting. We will also disclose voting results on a Current Report on Form 8-K that we will file with the SEC within four business days after the Annual Meeting. If final voting results are not available to us in time to file a Current Report on Form 8-K within four business days after the Annual Meeting, we will file a Current Report on Form 8-K to publish preliminary results and will provide the final results in an amendment to the Current Report on Form 8-K as soon as they become available.

What is the deadline to propose stockholder actions and director nominations for consideration at our 2027 annual meeting of stockholders?

Rule 14a-8 Stockholder Proposals

As prescribed by Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), stockholders may present proper proposals for inclusion in our proxy statement for our 2027 annual meeting of stockholders (the “2027 Annual Meeting”). For a Rule 14a-8 stockholder proposal to be timely and considered for inclusion in our proxy statement for our 2027 Annual Meeting, the proposal must comply with all applicable requirements of Rule 14a-8 and our secretary must receive the written proposal at our principal executive offices not later than December 11, 2026. Stockholder proposals should be addressed to:

Beyond Meat, Inc.
Attention: Secretary
888 N. Douglas Street, Suite 100
El Segundo, California 90245

Advance Notice Stockholder Proposals

Our Bylaws also establish an advance notice procedure for stockholders who wish to present a proper proposal, including director nominations, before an annual meeting of stockholders but do not intend for the proposal to be included in our proxy statement. Any such advance notice stockholder proposal, including director nominations, must comply with all of the requirements set forth in our restated certificate of incorporation, Bylaws and applicable laws, rules and regulations. Our Bylaws provide, among other requirements, that for business or director nominations to be properly brought before an annual meeting by a stockholder, (i) the stockholder must be a stockholder of record at the time of the giving of the notice and at the time of the meeting, (ii) the stockholder must be entitled to vote at the meeting, (iii) the business must be a proper matter for stockholder action, and (iv) the stockholder must give timely written notice to our secretary, which notice must contain the information specified in our Bylaws. For an advance notice stockholder proposal, including director nominations, to be timely for our 2027 Annual Meeting, our secretary must receive the written proposal at our principal executive offices at the address listed above:

- not earlier than the close of business on January 20, 2027; and
- not later than the close of business on February 19, 2027.

In the event that we hold our 2027 Annual Meeting more than 30 days before or more than 60 days after the one-year anniversary of the Annual Meeting, notice of an advance notice stockholder proposal must be received no earlier than the close of business on the 120th day before our 2027 Annual Meeting and no later than the close of business on the later of the following two dates:

- the 90th day prior to our 2027 Annual Meeting; or
- the 10th day following the day on which public announcement of the date of the 2027 Annual Meeting is first made by the company.

You are advised to review our Bylaws, which contain additional requirements regarding advance notice stockholder proposals, including director nominations.

In addition to satisfying the advance notice requirements under our Bylaws, stockholders who intend to solicit proxies in support of director nominees for election at the 2027 Annual Meeting, other than the company's director nominees, must provide a notice that sets forth the information required by Rule 14a-19 under the Exchange Act by no later than February 19, 2027.

Availability of Bylaws

A copy of our Bylaws is available via the SEC's website at <https://www.sec.gov>. You may also contact our secretary at the address set forth above for a copy of the relevant Bylaw provisions regarding the requirements for making stockholder proposals and nominating director candidates.

BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Board of Directors Composition

Under our restated certificate of incorporation, our board of directors may establish the authorized number of directors from time to time by resolution. Our board of directors is currently composed of nine members. Each director's term continues until the election and qualification of his or her successor, or his or her earlier death, resignation, disqualification or removal. Our restated certificate of incorporation provides that no director may be removed from our board of directors except for cause and only by the affirmative vote of the holders of at least two-thirds of the voting power of the then-outstanding shares of stock entitled to vote generally in the election of directors.

Our board of directors is divided into three classes of directors, each serving a staggered three-year term. Only one class of directors will be elected at each annual meeting of stockholders, with the other classes continuing for the remainder of their respective three-year terms. Directors are assigned to each class in accordance with resolutions adopted by our board of directors, with the number of directors in each class to be divided as nearly equal as reasonably possible. In the event of any increase or decrease in the authorized number of directors, each director then serving will continue as a director of the class of which the director is a member, and the newly created or eliminated directorships resulting from such increase or decrease will be apportioned by our board of directors among the three classes of directors so that no one class has more than one director more than any other class.

We believe that a classified board structure may offer several advantages, such as promoting board continuity and stability, encouraging directors to plan for long-term goals, ensuring that a majority of the directors will always have prior experience with the company and providing protection against certain abusive takeover tactics. We have a successful history of refreshing our board of directors and allocating board roles efficiently and appropriately. Since 2022, we have added seven new independent directors, each of whom bolsters oversight of our board of directors in areas critical to our business strategy, bringing additional skills and backgrounds to our board of directors.

Our restated certificate of incorporation provides that, unless otherwise determined by our board of directors or as provided by law, any vacancy occurring on our board of directors for any cause, and any newly created directorship resulting from any increase in the authorized number of directors, will be filled only by the affirmative vote of a majority of the directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy or a newly created directorship will hold office for a term expiring at the annual meeting of stockholders at which the term of office of the class to which the director has been assigned expires and until such director's successor has been duly elected and qualified, or until such director's earlier death, resignation, disqualification or removal.

Board Transition Matters

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2025, which was filed with the SEC on April 9, 2026 (“2025 Form 10-K”), in October 2025, we completed an offer to exchange (the “Exchange Offer”) our outstanding 0% Convertible Senior Notes due 2027 (the “2027 Notes”) for a combination of (i) up to \$202.5 million in aggregate principal amount of newly issued 7.00% Convertible Senior Secured Second Lien PIK Toggle Notes due 2030 (the “2030 Notes”) and (ii) up to 326,190,370 shares of our common stock. In connection with the Exchange Offer, Ethan Brown and Nandita Bakhshi, who served as Class III and Class II directors, respectively, resigned from the board of directors effective as of October 15, 2025. Mr. Brown has, since his resignation from the board of directors, participated and is expected to continue to participate, in meetings of our board of directors in his capacity as President and Chief Executive Officer of the company. C. James Koch, who served as a Class I director, also resigned from the board of directors effective as of October 15, 2025 and was simultaneously appointed to the Class II seat vacated by Ms. Bakhshi to serve until our 2027 Annual Meeting and until his successor is duly elected and qualified, or until his earlier death, resignation, disqualification or removal, and continued to serve on the risk committee. Further, as a result of Ms. Bakhshi’s resignation, Joshua M. Murray was appointed to the nominating and corporate governance committee and appointed as the chair thereof effective as of October 15, 2025. Effective simultaneously with the resignations of Mr. Brown and Ms. Bakhshi and the appointment of Mr. Koch as a Class II director, the board of directors appointed Alexandre Zyngier and Raphael Thomas Wallander to serve as a Class I director until the Annual Meeting and as a Class III director until our 2028 annual meeting of stockholders, respectively, and until their successors are duly elected and qualified, or until their earlier death, resignation, disqualification or removal. In addition, in connection with their appointment to the board of directors, Mr. Zyngier was appointed to the audit committee and Mr. Wallander was appointed to the human capital management and compensation committee.

Director Candidate Selection and Evaluation

Our board of directors is responsible for nominating members for election to our board of directors and for filling vacancies on the board of directors that may occur between annual meetings of stockholders. The nominating and corporate governance committee is generally responsible for identifying, evaluating and recommending candidates to our board of directors for board membership. Our nominating and

corporate governance committee may use outside consultants to assist in identifying candidates. When formulating its board membership recommendations, our nominating and corporate governance committee may also consider advice and recommendations from stockholders, our board of directors, management, outside advisors to the company and others as it deems appropriate.

Stockholder Recommendations

Stockholders who wish to recommend individuals for consideration by our nominating and corporate governance committee to become director nominees for election to our board of directors may do so by delivering a written recommendation addressed to Beyond Meat, Inc., Attn: Secretary, 888 N. Douglas Street, Suite 100, El Segundo, California 90245, no later than the close of business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the preceding year's annual meeting.

Our Bylaws provide that, with respect to such director nominee, submissions must include (i) the individual's full name, age, business address and residence address, (ii) the individual's principal occupation or employment, (iii) the number of shares of our common stock beneficially owned by the individual, the date or dates such shares were acquired and the investment intent of such acquisition, (iv) a completed and executed written questionnaire with respect to the background and qualification of such person, which will be provided by our secretary upon written request by any stockholder of record, (v) a written representation and agreement regarding not being a party to certain voting arrangements, in a form that will be provided by our secretary upon written request by any stockholder of record, (vi) all other information relating to the individual that would be required to be disclosed in the solicitations of proxies for the election of directors in an election contest or would be otherwise required, in each case pursuant to and in accordance with Section 14(a) under the Exchange Act, (vii) whether such individual meets the independence requirements of the Nasdaq Global Select Market ("Nasdaq"), (viii) a statement whether such individual, if elected, intends to tender an irrevocable resignation that will become effective in respect of subsequent elections where such individual fails to receive the required vote for re-election, and (ix) any additional information required by our Bylaws. Our nominating and corporate governance committee has discretion to decide which individuals to recommend for nomination as directors.

Identification and Evaluation of Director Nominees at our Annual Meeting

Our nominating and corporate governance committee annually reviews the needs of the board of directors in terms of independence, skills and characteristics in connection with evaluating recommendations for election or re-election.

Candidates are identified with input from our board of directors, stockholders, management and outside consultants.

Our nominating and corporate governance committee considers certain factors, including, but not limited to, the qualifications, independence, integrity, skills, financial and other expertise, breadth of experience, and knowledge about our business or industry and recommends nominees to the board of directors.

Our board of directors evaluates the qualifications of the recommended candidates and selects nominees.

Our stockholders vote on director nominees at our annual meeting of stockholders.

Our nominating and corporate governance committee is responsible for developing and recommending to our board of directors for determination any specific minimum qualifications that must be met, any specific qualities or skills that are necessary for one or more of our board members to possess, and the desired qualifications, expertise and characteristics of our board members, with the goal of developing an experienced and highly qualified board with directors who have different backgrounds and skillsets, and who contribute to the total mix of viewpoints and experience represented on our board of directors. Among the criteria our nominating and corporate governance committee may also consider are differences in professional background, experience at policy-making levels in business, finance and other areas, education, skills and other individual qualities and attributes. In evaluating potential candidates for our board of directors, our nominating and corporate governance committee will consider these factors, as well as director tenure, in light of the specific needs of our board of directors at that time and any legal requirements.

Our nominating and corporate governance committee evaluates each individual in the context of our board of directors as a whole, with the objective of recommending for nomination directors that will best serve the interests of the company and our stockholders. In making its recommendations to the board of directors, the nominating and corporate governance committee will also consider the number of other public company boards and other boards (or comparable governing bodies) of which a prospective director nominee is a member, as well as a prospective director nominee's other professional responsibilities. Incumbent directors are expected to advise the chair of the board or chair of the nominating and corporate governance committee in advance of accepting an invitation to serve on the board of directors of any organization, whether public or private, and whether for-profit or not-for-profit. Unless the nominating and corporate governance committee and our board of directors determine otherwise, no director shall serve on more than four public company boards, including the company's board, and the company's chief executive officer shall not serve on more than two public company boards, including the company's board. Additionally, no member of the company's audit committee shall simultaneously serve on the audit committees of more than three public companies (including the company's board), unless the member is a retired CPA, CFO, controller or has similar experience, in which case the limit shall be four audit committees, taking time and availability into consideration, including a review of the member's attendance at all of the company's board and committee meetings. Directors also are expected to limit the number of other boards, including non-profits, on which they serve in order to devote adequate time and effort to their board responsibilities. Service on other boards and/or committees should be consistent with the company's conflict of interest policies. Our nominating and corporate governance committee evaluates director nominees recommended by stockholders in the same manner as it evaluates other director nominees.

Selection of 2026 Director Nominees

Based on the recommendation of the nominating and corporate governance committee, our board of directors has nominated Seth Goldman, Kathy Waller and Alexandre Zyngier for election to the board of directors as Class I directors. Mr. Goldman, Ms. Waller and Mr. Zyngier are incumbent directors.

The experiences, qualifications and skills of each of the director nominees for election as a director at the Annual Meeting and for each of the continuing members of our board of directors that our board of directors considered in the nomination of such director or in concluding why the director should continue serving on our board, are included below under "Board Composition and Skills." Our board of directors concluded that each director nominee should serve as a director based on the specific experience and attributes listed in their respective biographies below and their respective service on our board of directors, including the insight each director nominee brings to our board of directors' functions and deliberations.

Board Composition and Skills

Our board of directors believes that a range of experience, tenure, age and other factors contributes to effective governance over the affairs of the company for the benefit of its stockholders. There are no limits on the number of terms that may be served by a director, and there is no fixed retirement age for directors.

The following charts summarize certain attributes of our board of directors, assuming all of the proposed Class I director nominees are elected at the Annual Meeting:

Nominees for Director

SETH GOLDMAN

Chair of the Board

Member of the Nominating and Corporate Governance Committee

Other Current Public Company Boards: None

Seth Goldman has served as a member of our board of directors since February 2013. Mr. Goldman served as Executive Chair of Beyond Meat from October 2015 through February 2020. Mr. Goldman co-founded Eat the Change, Inc., a plant-based snack food and organic tea company which now does business under the name Just Ice Tea®, and has served as its Chief Executive Officer since March 2020. He is also a Co-Founder of PLNT Management, Inc., which operates PLNT Burger®, a plant-based quick-serve restaurant chain, and has served as its Board Chair since 2021. Mr. Goldman has been the Chair of Mission Guardians for Tony’s Chocolonely, a Certified B Corporation and impact company that makes chocolate and seeks to end exploitation in the cocoa supply chain, since that position was established in May 2023. Mr. Goldman has been a member of the Maryland Economic Development Commission since April 2023. Mr. Goldman was the TeaEO Emeritus and Innovation Catalyst for The Coca-Cola Company’s Venturing & Emerging Brands, a part-time position he held from November 2015 through December 2019. Mr. Goldman co-founded Honest Tea Inc., a bottled organic tea company, in February 1998, which was later sold to The Coca-Cola Company, and previously served as Honest Tea’s President and TeaEO until 2015.

In 2022, Mr. Goldman was named Person of the Year by BevNet Magazine, and in 2015 he was named the #1 Disruptor by Beverage World and Beverage Executive of the Year by Beverage Industry magazine. He has also been recognized as an Ernst & Young Entrepreneur of the Year and by the Washington Business Hall of Fame.

In 2018, Partnership for a Healthier America recognized Mr. Goldman with its Visionary CEO award. Mr. Goldman is a co-Chair of the Yale School of Management's Entrepreneurship Advisory Board and, since January 2008, has served on the board of directors of Bethesda Green, a sustainability non-profit he co-founded in Bethesda, Maryland. He also served on the board of directors of Ripple Foods, a dairy-free plant-based milk company, from November 2015 to October 2020, the advisory board of the American Beverage Association from 2013 to 2019 and the Yale School of Management from July 2013 to March 2020. Mr. Goldman has demonstrated his commitment to boardroom excellence as a Board Leadership Fellow and NACD Directorship Certified with the National Association of Corporate Directors.

Mr. Goldman received a BA degree in Government from Harvard College and an MPPM degree from Yale School of Management and is a Henry Crown Fellow at the Aspen Institute. We believe that Mr. Goldman is qualified to serve on our board of directors due to his extensive experience working at fast-growing brands in the food and beverage industry, his experience founding and building entrepreneurial companies, and his knowledge of sustainable business practices.

KATHY N. WALLER

Director Independence

Our common stock is listed on the Nasdaq. The listing rules of this stock exchange generally require that a majority of the members of a listed company's board of directors be independent. The Nasdaq independence definition includes a series of objective tests, including that the director is not, and has not been for at least three years, one of our employees and that neither the director nor any of his or her family members has engaged in various types of business dealings with us. Under Nasdaq rules, a director will only qualify as an "independent director" if, in the opinion of that company's board of directors, that person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

As previously disclosed on Form 8-K filed with the SEC on April 8, 2022, in connection with the settlement of certain derivative actions (the "Settlement"), we agreed to enact certain corporate governance reforms (the "Reforms") including that at least two-thirds of the members of our board of directors will be "independent directors" as defined in the Nasdaq listing standards, Sarbanes-Oxley Act and satisfy the following qualifications: (1) has no personal service contract(s) with us or any member of our senior management; and (2) is not employed by a public company at which an executive officer of the company serves as a director, regardless of whether that executive officer serves on the compensation committee of that public company (the "Additional Independence Qualifications"). These Additional Independence Qualifications are contained in our corporate governance guidelines available on our website at <https://investors.beyondmeat.com>. Pursuant to the Settlement, the company is required to maintain the Reforms for a period of no less than four years after the effective date defined in the Settlement.

In addition, Nasdaq rules require that, subject to specified exceptions, each member of a listed company's audit, compensation and nominating and corporate governance committees be independent. Audit committee members and human capital management and compensation committee members must also satisfy the independence criteria set forth in Rule 10A-3 and Rule 10C-1, respectively, under the Exchange Act. To be considered independent for purposes of Rule 10A-3 and under Nasdaq rules, a member of an audit committee of a listed company may not, other than in his or her capacity as a member of the audit committee, the board of directors, or any other board of directors committee: (1) accept, directly or indirectly, any consulting, advisory or other compensatory fee from the listed company or any of its subsidiaries; or (2) be an affiliated person of the listed company or any of its subsidiaries. To be considered independent for purposes of Rule 10C-1 and under Nasdaq rules, our board of directors must affirmatively determine that each member of the human capital management and compensation committee is independent, including a consideration of all factors specifically relevant to determining whether the director has a relationship to the company which is material to that director's ability to be independent from management in connection with the duties of a human capital management and compensation committee member, including, but not limited to: (i) the source of compensation of such director, including any consulting, advisory or other compensatory fee paid by the company to such director; and (ii) whether such director is affiliated with the company, a subsidiary of the company or an affiliate of a subsidiary of the company.

As previously disclosed on Form 8-K filed with the SEC on December 21, 2022, in connection with the Reforms, we established a risk committee. The risk committee charter requires that each member of the risk committee shall be “independent,” as that term is defined from time to time in Section 10A(m) of the Exchange Act and the applicable rules and regulations of the SEC, and shall meet the independence requirements under Nasdaq rules. To be considered independent as defined in Section 10A(m) of the Exchange Act and under Nasdaq rules, a member of the risk committee may not, other than in his or her capacity as a member of the risk committee, the board of directors, or any other board of directors committee: (1) accept, directly or indirectly, any consulting, advisory, or other compensatory fee from the company or any of its subsidiaries; or (2) be an affiliated person of the company or any of its subsidiaries. Pursuant to the Settlement, the company is required to maintain the Reforms for a period of no less than four years after the effective date defined in the Settlement.

Our board of directors undertook a review of its composition, the composition of its committees and the independence of our directors and director nominees and considered whether any director or director nominee has a material relationship with us that could compromise his or her ability to exercise independent judgment in carrying out his or her responsibilities. Based upon information requested from and provided by each director and director nominee concerning his or her background, employment, affiliations, including family relationships and direct and indirect investments in plant-based food companies and other businesses, and personal service contracts with the company, our board of directors determined that each of Messrs. Goldman, Koch, Lane, Murray, Wallander and Zyngier and Meses. Grayson, Jay and Waller do not have relationships that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors or director nominees is “independent” as that term is defined under the applicable rules of the SEC and the listing standards of Nasdaq and meets the Additional Independence Qualifications. Our board of directors also determined that Nandita Bakhshi, who resigned as a director effective as of October 15, 2025 in connection with the Exchange Offer, was independent during the time she served on our board of directors. Mr. Brown, as our President and Chief Executive Officer, was not independent under Nasdaq’s independence standards during the time he served on our board of directors. In making these determinations, our board of directors considered the current and prior relationships that each non-employee director and director nominee has with our company and all other facts and circumstances our board of directors deemed relevant in determining their independence. There are no family relationships among any of our directors, director nominees, or executive officers.

Board of Directors Leadership Structure

Our board of directors recognizes that it is important to determine an optimal board leadership structure to ensure independent oversight of management. Under our corporate governance guidelines, our board of directors does not require the separation of the offices of the chair of the board and the chief executive officer. Our board of directors may choose its chair in any way that it considers in the best interests of our company. The duties of the chair of the board, lead independent director and chief executive officer (who, though currently is not a board member, attends meetings of the board of directors in his capacity as chief executive officer of the company) are set forth in the following table and further described below.

CHAIR OF THE BOARD	LEAD INDEPENDENT DIRECTOR	CHIEF EXECUTIVE OFFICER
<ul style="list-style-type: none"> Provides guidance to the chief executive officer 	<ul style="list-style-type: none"> Calls special meetings of our board of directors, along with the chair of the board, the chief executive officer or a majority of the board of directors 	<ul style="list-style-type: none"> Sets strategic direction of the company
<ul style="list-style-type: none"> Presides over meetings of the full board of directors 	<ul style="list-style-type: none"> Presides over executive sessions of the independent directors 	<ul style="list-style-type: none"> Sets the day-to-day leadership and performance of the company
<ul style="list-style-type: none"> Calls special meetings of our board of directors, along with the chief executive officer, the lead independent director or a majority of the board of directors 	<ul style="list-style-type: none"> Serves as a liaison between the chair and the chief executive officer and the independent directors 	<ul style="list-style-type: none"> Provides general supervision, direction and control of the business and affairs of the company
	<ul style="list-style-type: none"> Consults with the chair and the chief executive officer regarding information sent to our board of directors in connection with its meetings 	<ul style="list-style-type: none"> Presides at all stockholder meetings, unless otherwise designated by the board of directors or by our Bylaws
	<ul style="list-style-type: none"> Makes recommendations to the chair of the board regarding the retention of consultants who report directly to the board of directors (other than consultants who are selected by the various committees of the board) 	

Currently, Seth Goldman serves as chair of our board of directors and Ethan Brown serves as chief executive officer. Mr. Brown also served as a member of our board of directors until October 15, 2025. See “Board Transition Matters” above. Raymond J. Lane served as Lead Independent Director until February 9, 2023, when Kathy N. Waller was appointed by our board of directors to the role.

Our chief executive officer is responsible for setting the strategic direction for our company and the day-to-day leadership and performance of our company, while our chair of the board provides guidance to our chief executive officer and presides over meetings of the full board of directors. Our board of directors believes that this overall structure of a separate chair of the board and chief executive officer, combined with a lead independent director, results in an effective balancing of responsibilities, experience and independent perspectives that meets the current corporate governance needs and oversight responsibilities of our board of directors, whether or not the chief executive officer serves as a director.

Our board of directors has concluded that the current leadership structure is appropriate at this time. However, our nominating and corporate governance committee will periodically consider this leadership structure and make recommendations to the board of directors with respect thereto as our nominating and corporate governance committee deems appropriate.

Lead Independent Director; Executive Sessions of Independent Directors

Under our Bylaws, our board of directors may, in its discretion, elect a lead independent director from among its members that are independent directors. Kathy N. Waller currently serves as our Lead Independent Director.

Under our Bylaws, our lead independent director will preside at all meetings at which the chair of the board is not present, may call special meetings of our board of directors, and will exercise such other powers and duties as may be assigned by our board of directors. Under our corporate governance guidelines, our lead independent director will, among other things, preside over executive sessions of the independent directors; serve as a liaison between the chair of the board and the chief executive officer and the other independent directors; consult with the chair of the board and the chief executive officer regarding information sent to our board of directors in connection with its meetings; have the authority to call meetings of our board of directors and meetings of the independent directors; make recommendations to the chair of the board regarding the retention of consultants who report directly to the board of directors (other than consultants who are selected by the various committees of the board of directors); be available under appropriate circumstances for consultation and direct communication with stockholders; and perform such other functions and responsibilities as requested by our board of directors from time to time. Our lead independent director will also encourage direct dialogue between all directors (particularly those with dissenting views) and management.

To encourage and enhance communication among independent directors, and as required under applicable Nasdaq rules, our independent directors meet in regularly scheduled executive sessions, on a periodic basis but no less than twice a year, at which only independent directors are present. Any independent director can request that an additional executive session be scheduled.

Role of the Board in Risk Oversight

One of the key functions of our board of directors is to oversee our risk management process. The board believes that each director should understand the principal risks associated with the company's business on an ongoing basis and it is the responsibility of management to ensure that the board and its committees are kept well informed of these changing risks on a timely basis. It is important that the board oversees the key risk decisions of management, which includes comprehending the appropriate balance between risks and rewards.

Our board of directors administers this oversight function directly through our board of directors as a whole, as well as through various committees of our board of directors that address the risks inherent in their respective areas of oversight as described below. Risk assessment and risk management are the responsibility of the company's management. While the board provides the ultimate oversight function over risk assessment and risk management, the risk committee's responsibility in this regard is, along with the audit committee, to provide an initial level of oversight and review and to report to the board of directors on these issues. This risk process includes regular discussions with management about our major risk exposures, their potential impact on our business, and management strategies for adequately mitigating and managing identified risks.

BOARD OF DIRECTORS

- Oversees the company's program to prevent and detect violations of law, regulation or company policies and procedures.
- Monitors and assesses enterprise risk exposure.
- Reviews periodic reports from each of the committees on their areas of risk oversight.

AUDIT COMMITTEE

- Oversees the company's risks relating to financial matters, financial reporting and auditing, internal audit, and the steps our management has taken to monitor and control these exposures.
- Monitors compliance with legal and regulatory requirements.
- Provides oversight with respect to ethical conduct and any related matters.

HUMAN CAPITAL MANAGEMENT AND COMPENSATION COMMITTEE

- Assesses and monitors whether any of our compensation programs and practices has the potential to encourage excessive risk-taking.
- Oversees and assesses any risks associated with the company's human capital management programs and practices.
- Employs an independent compensation consultant to assist in designing and reviewing compensation programs, including the potential risks created by the programs.

NOMINATING AND CORPORATE GOVERNANCE COMMITTEE

- Oversees risks associated with board organization, membership and structure, and corporate governance.
- Monitors risks relating to and arising from the company's ESG programs and practices.
- Oversees compliance with key corporate governance policies, including the company's corporate governance guidelines, and oversees and reviews ESG practices, policies and programs.

RISK COMMITTEE

- Assists the board of directors and the audit committee in the oversight of the company's management of key risks, including strategic and operational risks and legal, compliance and ethics risks.
- Reviews and assesses compliance with the company's guidelines, policies and processes for monitoring and mitigating such key risks.
- Oversees non-financial compliance matters, including those relating to enterprise-wide risks, in coordination with the audit committee.
- Reviews cybersecurity risks and incidents and any other risks and incidents relevant to the company's computerized information system controls and security.

Information Security and Risk Oversight

The risk committee oversees management's implementation of our cybersecurity risk management program.

The risk committee receives annual reports from management on our cybersecurity risks. In addition, management updates the risk committee, as necessary, regarding any material cybersecurity incidents, as well as any incidents with lesser impact potential. The risk committee reports to the full board of directors regarding its activities.

Our IT team, including our Director of IT, is responsible for assessing and managing our material risks from cybersecurity threats. The Director of IT reports to the Chief Financial Officer, who, together with the Director of IT, is responsible for escalating material cybersecurity risks and incidents to the risk committee. The IT team has primary responsibility for our overall cybersecurity risk management program and supervises both our internal cybersecurity personnel and our retained external cybersecurity consultants. Members of our IT team have more than ten years of experience in information technology and cybersecurity across a range of industries. The team maintains technical expertise in systems, security and network administration, and participates in ongoing professional development, including regular cybersecurity training and awareness programs.

Our IT team supervises efforts to prevent, detect, mitigate, and remediate cybersecurity risks and incidents. Our cybersecurity risk management program is informed by industry standards, including the National Institute of Standards and Technology (NIST) Cybersecurity Framework. We engage independent third-party cybersecurity service providers to assist with 24/7 security monitoring, threat detection, incident response, vulnerability assessments and periodic testing of our controls. These efforts may include briefings from internal security personnel; threat intelligence and other information obtained from governmental, public or private sources, including external consultants engaged by us; and alerts and reports produced by security tools deployed in the IT environment.

ESG Oversight

Our nominating and corporate governance committee, with the assistance of the ESG Executive Steering Committee, has oversight responsibility of our ESG program. The nominating and corporate governance committee oversees and reviews our ESG practices, policies, programs and public disclosure, oversees our engagement with proxy advisory firms and other stakeholders on ESG matters, reviews stockholder proposals submitted to the company that are within the purview of this committee and provides guidance to the ESG Executive Steering Committee. Our ESG Executive Steering Committee, comprising a team of cross-functional senior leaders, sets the strategic direction for our ESG program and oversees compliance with ESG-related legal and regulatory requirements. The ESG Committee is led by Mr. Brown, our President and Chief Executive Officer. The ESG Committee meets regularly and reports to the nominating and corporate governance committee with quarterly progress updates.

We have published policies that address our priority ESG issues, including a Climate Change Policy, an Enterprise Human Rights Policy, an Environmental Policy and a Supplier Code of Conduct. These policies outline our commitments to reducing our contribution to climate change, mitigating ESG risks, enhancing environmental stewardship, ensuring human rights adherence within our operations and supply chain, and articulating our ESG expectations for suppliers.

Our board of directors believes that our human capital management initiatives are vital to the success of our company. Our board of directors has delegated oversight responsibility of our human capital management efforts, including those policies and strategies regarding recruiting, engagement, retention, employee learning, career development and progression, succession planning, inclusion and belonging, and employment practices, to our human capital management and compensation committee.

Corporate Governance Guidelines

Our board of directors maintains corporate governance guidelines that address items such as:

-
- director qualifications and criteria;
 - size and composition of the board of directors;
 - director independence;
 - chair of the board and lead independent director;
 - board meetings;
 - director responsibilities and selection;
 - employee and stockholder communications with our board of directors;
 - executive sessions;
 - board committees;
 - risk oversight;
 - attendance at annual meeting of stockholders;
 - director compensation;
 - director orientation and continuing education;
 - director access to officers and employees and authority to retain and access advisors;
 - CEO and senior management succession planning;
 - CEO and executive officer performance reviews;
 - performance evaluation of our board of directors and its committees;
 - director resignation policy; and
 - director and senior executive stock ownership.
-

Our corporate governance guidelines are available under the “Investors” section of our website at <https://investors.beyondmeat.com>.

Code of Business Conduct and Ethics

We maintain a written code of business conduct and ethics that applies to our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, contractors and consultants. Our code of business conduct and ethics is available under the “Investors” section of our website at <https://investors.beyondmeat.com>. We intend to disclose future amendments to our code of business conduct and ethics, or any waivers of its requirements, applicable to any principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, or our directors on the same website or in a Form 8-K filed with the SEC. We will also provide a paper copy of our code of business conduct and ethics, free of charge, to any stockholder upon written request to Beyond Meat, Inc., 888 N. Douglas Street, Suite 100, El Segundo, California 90245.

Our code of business conduct and ethics addresses items such as:

-
- legal compliance;
 - insider trading;
 - international business laws and international trade control requirements;
 - lawsuits, legal proceedings and record preservation;
 - conflicts of interest;
 - corporate opportunities;
 - conduct of senior financial employees;
 - gifts and entertainment;
 - political contributions;
 - competition and fair dealing;
 - confidentiality;
 - media contracts and publications; and
 - inclusion and belonging.
-

Director Orientation and Continuing Education

The company provides for an orientation process for new directors that includes background material, meetings with senior management and visits to company facilities. The board of directors encourages all directors to stay abreast of developing trends for directors from the variety of sources available. Directors may be expected, based on the recommendations of our nominating and corporate governance committee, to participate in continuing educational programs relating to the company’s business, corporate governance or other issues pertaining to their directorships in order to maintain the necessary level of expertise to perform their responsibilities as directors. We also provide all directors with National Association of Corporate Directors membership.

Meetings of the Board of Directors

Directors are expected to regularly attend meetings of our board of directors and committees on which such director serves, and to review prior to meetings materials distributed in advance of such meetings.

Our board of directors held 12 meetings (including regularly scheduled, special and joint meetings with the transaction committee) during 2025. During 2025, each director then serving attended at least 75% of the total number of aggregate board and committee meetings on which he or she served (held during the period that such director served). Under our corporate governance guidelines, directors are invited and encouraged to attend our annual meeting of stockholders, either in person, telephonically or virtually. Six directors and three director nominees attended our 2025 annual meeting of stockholders. Five directors attended our 2025 special meeting of stockholders.

Board Committees

Our board of directors may designate one or more committees in accordance with our Bylaws. Our board of directors has a standing audit committee, a standing human capital management and compensation committee, a standing nominating and corporate governance committee, and a standing risk committee, each of which has the composition and the responsibilities described below. Copies of the charters for each standing board committee are available under the “Investors” section of our website at <https://investors.beyondmeat.com>. Members serve on these standing committees at the discretion of our board of directors and may be replaced by the board of directors at any time or for any reason.

In June 2024, the board of directors authorized and approved the formation of a special transaction committee of the board to carry out the powers, responsibilities and obligations related to, among other things, the review, consideration, evaluation and negotiation of one or more potential refinancing transactions of the 2027 Notes and potential strategic alternatives available to the company, including the Exchange Offer. In 2025, Mr. Lane, Mr. Murray and Ms. Waller served as members, and Ms. Grayson served as chair, of the transaction committee. The transaction committee held 28 meetings (including joint meetings with the board of directors and with the human capital management and compensation committee) during 2025. The transaction committee was disbanded on October 15, 2025, the early settlement date of the Exchange Offer.

In December 2025, the board of directors authorized and approved the formation of a special strategy committee of the board to assist the board, standing committees of the board and the Company's management in, among other things, the assessment of additional value creation opportunities and broader business transformation activities. Mr. Lane, Mr. Murray and Ms. Grayson currently serve as members, and Mr. Zyngier currently serves as chair, of the strategy committee. The strategy committee held four meetings during 2025.

Number of Meetings

Held in 2025: 4

Each member of our risk committee meets the requirements for independence under the listing standards of Nasdaq, SEC rules and regulations, and Section 10A(m) of the Exchange Act.

Compensation Committee Interlocks and Insider Participation

During 2025, Colleen Jay, Raymond J. Lane, Raphael Thomas Wallander and Kathy N. Waller served on our human capital management and compensation committee. None of the members of our human capital management and compensation committee is or has been an officer or employee of our company and, none had or have any relationships with the company during the last fiscal year that are required to be disclosed under Item 404 of Regulation S-K under the Exchange Act. None of our executive officers currently serves, or in the past fiscal year has served, as a member of the board of directors or compensation committee (or other board of directors committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of any entity that has one or more executive officers serving on our board of directors or human capital management and compensation committee.

Communications with the Board of Directors

Stockholders and other interested parties may communicate with our board of directors as a whole, the chair of the board, the lead independent director or the independent directors as a group, by writing to our board of directors c/o Secretary, Beyond Meat, Inc., 888 N. Douglas Street, Suite 100, El Segundo, California 90245. All mail received will be opened and communications that relate to matters that are within the scope of the responsibilities of our board of directors will be forwarded to the chair of the board, the lead independent director or the independent directors as a group, as applicable. If the correspondence is addressed to our board of directors, the chair of the board will share it with the other board members if the chair determines it is appropriate for our board of directors to review such correspondence.

Listening to Our Stockholders

Our board of directors welcomes feedback from stockholders on our board composition, governance practices and policies, executive compensation framework, and other matters related to our strategy and performance. In 2023, we launched a formal stockholder outreach program in order to solicit additional input from stockholders and conducted a cycle of outreach in the fall of 2024 to gather feedback subsequent to our 2024 annual meeting of stockholders. In light of the substantial transactions undertaken by the company during 2025, the timing of the Exchange Offer and the special meeting of stockholders held on November 19, 2025, we did not engage in a formal stockholder outreach program in 2025; however, we intend to resume this program in 2026. Our outreach efforts are conducted by a cross-functional team which may include employees and members of management from finance, investor relations, legal, ESG and corporate governance, as well as board representation, including the chair of our human capital management and compensation committee. Additionally, our chief executive officer and chief financial officer are engaged in meaningful dialogue with our stockholders through our quarterly earnings calls and investor-related outreach events.

Director Compensation

Under our outside director compensation policy, we compensate non-employee directors for their service on our board of directors with a combination of cash and equity awards under our Amended and Restated 2018 Equity Incentive Plan, as approved by our stockholders on November 19, 2025 (the “Restated Plan”), the amounts of which are intended to be commensurate with their role and involvement. Our Restated Plan provides that all non-employee directors are eligible to receive all types of awards under our Restated Plan except for incentive stock options (“ISOs”). The compensation program for our non-employee directors is intended to provide a total compensation package that enables us to attract and retain qualified and experienced individuals to serve as directors and to align our directors’ interests with those of our stockholders. Directors are also reimbursed for their reasonable expenses for attending board and committee meetings. Directors who are also our employees receive no additional compensation for their service as directors. During 2025, Mr. Brown, our President and Chief Executive Officer, who served as a member of our board of directors until October 15, 2025, did not receive compensation for his board service under our outside director compensation policy during the time that he served on our board of directors.

Our human capital management and compensation committee, which is composed solely of independent directors, has the primary responsibility for reviewing and making recommendations to our board of directors as to non-employee director compensation. Our human capital management and compensation committee has periodically reviewed and assessed the level, type and form of compensation paid to our non-employee directors.

In May 2025, our human capital management and compensation committee considered the results of an analysis completed by the company's independent compensation consultant, Willis Towers Watson ("WTW"), that included a review of the Company's non-employee director compensation program and recommendations with respect to the annual grants (as described below) for the 2025 fiscal year and compensation arrangements for members of the transaction committee. As a result of that analysis, in May 2025, upon recommendation of our human capital management and compensation committee, and in light of the uncertainty regarding future dilution as a result of the contemplated Exchange Offer, our board of directors approved the suspension of the annual grants for the 2025 fiscal year, and approved the transaction committee service retainers set forth in the table below. In September 2025, upon recommendation of our human capital management and compensation committee, our board of directors approved the suspension of all equity compensation for our non-employee directors until otherwise determined by our board of directors.

In 2025 and 2026, our human capital management and compensation committee considered the results of an analysis completed by WTW that included non-employee director compensation trends and data from companies comprising our 2026 executive officer compensation peer group (see "*Compensation Discussion and Analysis—Peer Group Comparisons for Benchmarking NEO Compensation—2026 Peer Group*").

As a result of that analysis, in early 2026, upon recommendation of our human capital management and compensation committee, our board of directors approved, among other things, (i) increases in annual cash retainers effective January 1, 2026, (ii) strategy committee service retainers retroactive to November 17, 2025 when the committee was formed, (iii) an increase in the annual restricted stock unit ("RSU") value from \$105,000 to \$120,000, with annual equity grants expected to resume in 2026, (iv) elimination of the initial grant of RSU awards to new outside directors, and (v) the addition of a deferral election for annual RSU awards to non-employee directors. The prior annual cash retainers for the board of directors (including the chair of the board and the lead independent director), audit committee, human capital management and compensation committee, and nominating and corporate governance committee had remained unchanged since the closing of our initial public offering in May 2019.

Cash Compensation

Under our outside director compensation policy, we pay our non-employee directors an annual cash retainer for service on our board of directors and an additional annual cash retainer for service on each committee on which the director is a member, payable in equal quarterly installments in arrears, prorated based on the days served in the applicable quarter. Our chair of the board, lead independent director and chair of each committee receive higher annual cash retainers for service in such roles. For each person who is elected or appointed for the first time to be an outside director, the first quarterly installment of the annual retainers set forth below will be paid for the first quarter that ends on or after the date of his or her initial election or appointment to be an outside director, prorated based on service during the quarter.

The cash compensation paid to our non-employee directors for service on our board of directors and for service on each committee of our board of directors in 2025 was as follows:

BOARD COMMITTEE	MEMBER ANNUAL CASH RETAINER (\$)	CHAIR ANNUAL CASH RETAINER ⁽¹⁾ (\$)	LEAD INDEPENDENT DIRECTOR ANNUAL CASH RETAINER ⁽¹⁾ (\$)
Board of Directors	40,000	67,500	48,000
Audit Committee	7,500	17,500	—
Human Capital Management and Compensation Committee	5,000	10,000	—
Nominating and Corporate Governance Committee	3,000	8,000	—
Risk Committee	3,000	8,000	—
Transaction Committee ⁽²⁾	37,500	50,000	—
Strategy Committee ⁽³⁾	10,000	20,000	—

(1) In lieu of amount shown in member annual cash retainer column.

(2) Effective as of January 1, 2025. The transaction committee was disbanded on October 15, 2025, the early settlement date of the Exchange Offer, with the cash retainers for the chair and committee members prorated based on the days served in the fourth quarter of 2025.

(3) Effective as of November 17, 2025, with the cash retainers for the chair and committee members prorated based on the days served in the fourth quarter of 2025.

The cash compensation paid to our non-employee directors for service on our board of directors and for service on each committee of our board of directors effective as of January 1, 2026, as approved by our board of directors in early 2026, is as follows:

BOARD COMMITTEE	MEMBER ANNUAL CASH RETAINER (\$)	CHAIR ANNUAL CASH RETAINER ⁽¹⁾ (\$)	LEAD INDEPENDENT DIRECTOR ANNUAL CASH RETAINER ⁽¹⁾ (\$)
Board of Directors	55,000	115,000	75,000
Audit Committee	10,000	20,000	—
Human Capital Management and Compensation Committee	7,500	15,000	—
Nominating and Corporate Governance Committee	5,000	10,000	—
Risk Committee	5,000	10,000	—
Strategy Committee	10,000	20,000	—

(1) In lieu of amount shown in member annual cash retainer column.

Equity Compensation

Annual Grant

Under our outside director compensation policy as in effect prior to the suspension of the equity compensation for our non-employee directors in 2025, unless otherwise determined by the board of directors upon recommendation of our human capital management and compensation committee, on the date of each annual meeting of stockholders, each director whose service as a non-employee member of our board of directors was to continue following such annual meeting was granted an RSU award having an RSU value of \$105,000. As a result of the suspension of equity compensation for our non-employee directors in May 2025, our non-employee directors did not receive RSU awards on the date of our 2025 annual meeting of stockholders.

In early 2026, upon recommendation of our human capital management and compensation committee, our board of directors amended our outside director compensation policy to: (i) increase the annual RSU value from \$105,000 to \$120,000, with annual equity grants expected to resume in 2026; and (ii) amend the vesting to provide that the annual RSU award is subject to vesting in full on the earlier of (a) the one-year anniversary of the grant date and (b) the day prior to the first annual meeting of stockholders following the grant date, subject to the director's continued service through such vesting date. The number of shares of common stock subject to the RSU award will equal the RSU intended grant value divided by the closing price of a share of our common stock as quoted on the stock exchange or national market system on which our common stock is listed on the grant date, rounded down to the nearest whole number of shares.

Vesting Acceleration

Non-employee directors' RSU awards will vest in full immediately prior to, and contingent upon, a change in control of the company if the non-employee director remains in continuous service as a member of the board of directors until immediately prior to the change in control. The consummation of the early settlement of the Exchange Offer on October 15, 2025 constituted a change in control under the RSUs granted to each of our non-employee directors. As a result, all outstanding RSUs held by the non-employee directors then serving on our board of directors vested on October 15, 2025, the early settlement date of the Exchange Offer.

Annual RSU Award Settlement Deferral Election

In March 2026, upon recommendation of our human capital management and compensation committee, our board of directors amended our outside director compensation and approved a program to allow non-employee directors to elect to defer the settlement of annual RSU awards. Non-employee directors may elect to delay the date of receipt of the shares of our common stock upon settlement of their annual RSU award upon completion of an election form in advance of the date of grant providing that any shares of common stock upon the settlement of such RSU award will be distributed in a single distribution upon the earliest to occur of the following events: (i) "separation from service" from the company (within the meaning of Section 409A of the Internal Revenue Code (the "Code")); (ii) a "change in control event" of the company (within the meaning of Section 409A of the Code); (iii) death or disability (within the meaning of Section 409A of the Code); or (iv) the calendar year that contains the fifth anniversary of the date of grant of such annual RSUs.

Award Limitations

Our Restated Plan provides that no non-employee director may receive awards under the Restated Plan that, when combined with cash compensation received for service as a non-employee director, have a value (determined as of the grant date in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, or any successor thereto) that exceeds \$650,000 in a calendar year, increased to \$900,000 in the calendar year of his or her initial services as a non-employee director. Awards granted to an individual while he or she was serving in the capacity as an employee or while he or she was an independent contractor but not a non-employee director will not count for purposes of the foregoing limitations. The administrator may make exceptions to this limit for individual non-employee directors in extraordinary circumstances, as the administrator may determine in its discretion.

Stock Ownership Guidelines for Outside Directors

In October 2024, our board of directors adopted stock ownership guidelines for outside directors to strengthen the alignment of interests between our non-employee directors and stockholders. Under the guidelines, each non-employee director is expected to own shares of our common stock having a value equal to at least five times the non-employee director's annual cash retainer, within five years from the later of October 22, 2024, and the date he or she first became a non-employee director. The shares counted towards this ownership requirement include (i) shares owned outright by the non-employee director or any of such person's immediate family residing in the same household; (ii) shares held in trust for the benefit of the non-employee director or such person's immediate family residing in the same household; (iii) shares underlying vested but unsettled restricted stock and restricted stock units (whether time or performance-based); and (iv) unvested restricted stock and restricted stock units, excluding unvested performance-based restricted stock and/or restricted stock units (during periods preceding certification of attainment of the applicable performance conditions thereunder). As of December 31, 2025, each non-employee director was in compliance with the applicable stock ownership guidelines or on track to achieve compliance within the allotted five-year time frame.

Non-Employee Director Compensation Table

The following table provides information for all compensation awarded to, earned by or paid to each person who served as a non-employee director in the year ended December 31, 2025. As a named executive officer, the compensation received by Mr. Brown, who served as a member of our board of directors until October 15, 2025, is shown below in "Executive Compensation: Summary Compensation Table."

Alexandre Zyngier	10,934	—	—	10,934

- (1) Includes all fees earned or paid in cash for services as a director, including annual retainer fees, committee and/or chairmanship fees. Amounts shown for Messrs. Wallander and Zyngier were prorated from October 15, 2025, when they were appointed to the board of directors. Amounts shown for Ms. Bakshi were prorated through October 15, 2025, when she resigned from the board of directors. See "Board Transition Matters" above.

- (2) In 2025, upon recommendation of our human capital management and compensation committee, our board of directors approved the suspension of equity compensation for our non-employee directors until otherwise determined by our board of directors. As a result, there were no equity awards granted to any of our non-employee directors in 2025. All outstanding RSUs held by the non-employee directors then serving on our board of directors vested on October 15, 2025, the early settlement date of the Exchange Offer. As of December 31, 2025, none of our non-employee directors held outstanding unvested RSU awards. As of December 31, 2025, the following non-employee directors held outstanding unexercised stock option awards: Mr. Goldman (70,940) and Ms. Waller (16,734). No other non-employee directors held outstanding stock option awards as of December 31, 2025.

Director and Officer Indemnification Agreements

We have entered, and may continue to enter into, separate indemnification agreements with our directors and executive officers, which provide indemnification in addition to the indemnification provided for in our Bylaws. These agreements, among other things, require us to indemnify our directors and executive officers for certain expenses, including attorneys' fees, judgments, penalties, fines and settlement amounts incurred by a director or executive officer in any action or proceeding arising out of their services as one of our directors or executive officers or as a director or executive officer of any other company or enterprise to which the person provides services at our request. For additional information, please see "Related Person Transactions—Indemnification of Directors and Officers."

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Our board of directors is currently composed of nine members. In accordance with our restated certificate of incorporation, our board of directors is divided into three staggered classes of directors. At the Annual Meeting, three Class I directors will be elected for a three-year term.

Director Nominees

Our nominating and corporate governance committee has recommended, and our board of directors has approved, Seth Goldman, Kathy Waller and Alexandre Zyngier as nominees for election as Class I directors at the Annual Meeting. If elected, Mr. Goldman, Ms. Waller and Mr. Zyngier will serve as Class I directors until our 2029 annual meeting of stockholders and until their successors are duly elected and qualified, or until their earlier death, resignation, disqualification or removal. Mr. Goldman, Ms. Waller and Mr. Zyngier are currently serving as directors of our company and have agreed to continue to serve if elected. For information concerning the nominees, please see “Board of Directors and Corporate Governance—Nominees for Director.”

If you are a stockholder of record and you sign your proxy card or vote by telephone, mobile device or over the Internet but do not give instructions with respect to the voting of directors, your shares will be voted “FOR” the election of Mr. Goldman, Ms. Waller and Mr. Zyngier. We expect that each of Mr. Goldman, Ms. Waller and Mr. Zyngier will accept such nomination; however, in the event that a director nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee designated by our board of directors to fill such vacancy. If you are a street name stockholder and you do not give voting instructions to your broker, bank or other nominee, your broker, bank or other nominee will not vote your shares on this matter.

Vote Required

Our Bylaws state that, to be elected, a director nominee must receive more votes cast “FOR” such director nominee’s election than votes cast “AGAINST” such director nominee’s election (with abstentions not counted as a vote cast either for or against that director nominee’s election and broker non-votes having no effect); provided, however, that a plurality of the votes cast is sufficient to elect a director if our secretary determines that the number of nominees exceeds the number of directors to be elected as of the Record Date. “Plurality” means that the individuals who receive the highest number of votes cast “FOR” are elected as directors and any shares not voted “FOR” a particular nominee (whether as a result of withholding a vote or a broker non-vote) have no effect, meaning stockholders will not be permitted to vote against a nominee. The number of nominees does not exceed the number of directors to be elected; therefore, to be elected as a director at the Annual Meeting, a nominee must receive more votes cast “FOR” such nominee’s election than votes cast “AGAINST” such nominee’s election as described above.

Full details of our voting policy for nominees are set forth in our Bylaws. A copy of our Bylaws is available via the SEC's website at <https://www.sec.gov>.

The Board of Directors recommends a vote FOR each of the nominees named above.

PROPOSAL NO. 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our audit committee has appointed Deloitte & Touche LLP (“Deloitte”) as our independent registered public accounting firm to audit our consolidated financial statements for the year ending December 31, 2026. Deloitte has served as our independent registered public accounting firm since 2015.

At the Annual Meeting, our stockholders are being asked to ratify the appointment of Deloitte as our independent registered public accounting firm for the year ending December 31, 2026. Stockholder ratification of the selection of Deloitte as our independent registered public accounting firm is not required by Delaware law, our restated certificate of incorporation or Bylaws. However, our audit committee is submitting the ratification of the appointment of Deloitte to our stockholders because we value our stockholders’ views on our independent registered public accounting firm and as a matter of good corporate governance. Notwithstanding the appointment of Deloitte and even if our stockholders ratify the appointment, our audit committee, in its discretion, may appoint another independent registered public accounting firm at any time during the year if our audit committee believes that such a change would be in the best interests of our company and our stockholders. If our stockholders do not ratify the appointment of Deloitte, our audit committee may reconsider the appointment.

We expect that a representative of Deloitte will attend the Annual Meeting, and the representative will have an opportunity to make a statement if he or she so chooses. The representative will also be available to respond to appropriate questions from stockholders.

Fees Paid to the Independent Registered Public Accounting Firm

The following table presents fees for professional audit services and other services rendered to our company by Deloitte for the years ended December 31, 2025 and 2024.

	2025 (\$) ⁽¹⁾	2024 (\$)
Audit Fees ⁽²⁾	3,804,000	2,180,000
Audit-Related Fees	—	—
Tax Fees ⁽³⁾	732,000	216,000
All Other Fees ⁽⁴⁾	1,895	1,895
Total Fees	<u>4,537,895</u>	<u>2,397,895</u>

(1) Includes fees billed and expected to be billed for the audit of the Company’s financial statements for the fiscal year ended December 31, 2025 and the review of financial statements for the interim periods within such year.

- (2) Audit Fees consist of fees for professional services rendered in connection with the audit of our financial statements, including the audited financial statements presented in our 2025 Form 10-K, which was filed with the SEC on April 9, 2026, and our Annual Report on Form 10-K for the year ended December 31, 2024, which was filed with the SEC on March 5, 2025, review of the interim financial statements included in our quarterly reports, and services that are normally provided by the independent registered public accounting firm in connection with regulatory filings or engagements for those years. For 2025 and 2024, this category includes fees for services rendered in connection with our shelf registration statements on Form S-3, including related comfort letter procedures and services rendered in connection with our registration statements related to securities offered to employees pursuant to employee benefit plans, including consents and review of documents filed with the SEC. For 2025, this category also includes fees for services rendered in connection with our debt exchange transactions, including related comfort letter procedures.
- (3) Tax Fees consist of fees for professional services for tax compliance, tax advice and tax planning, including assistance regarding federal, state and international tax compliance.
- (4) All Other Fees consist of fees for permitted products and services other than those that meet the criteria above.

Auditor Independence

In the year ended December 31, 2025, there were no other professional services provided by Deloitte, other than those listed above, that would have required our audit committee to consider their compatibility with maintaining the independence of Deloitte.

Pre-Approval Policies and Procedures

Consistent with requirements of the SEC and the Public Company Accounting Oversight Board (“PCAOB”) regarding auditor independence, our audit committee is responsible for the appointment, compensation and oversight of the work of our independent registered public accounting firm. In recognition of this responsibility, our audit committee pre-approves all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. All services provided by Deloitte in 2025 and 2024 were pre-approved by our audit committee.

Vote Required

The ratification of the appointment of Deloitte requires the affirmative vote of the holders of a majority of the voting power of the shares of our common stock entitled to vote on the proposal that are present in person (which includes by remote communication) or represented by proxy at the Annual Meeting and are voted for or against the proposal. Abstentions are not considered votes for or against this proposal, and thus, will have no effect on the outcome of this proposal. Broker non-votes, if any, will also have no effect on the outcome of this proposal.

The Board of Directors recommends a vote FOR the ratification of the appointment of Deloitte & Touche LLP.

REPORT OF THE AUDIT COMMITTEE

The audit committee assists the board of directors in fulfilling its oversight responsibilities relating to the integrity of the company's financial statements, the adequacy of internal controls, compliance with legal and regulatory requirements, the qualifications and independence of Deloitte and the performance of its audits, and such other duties as directed by the board of directors. The audit committee presently consists of three independent directors. All audit committee members are considered financially literate under Nasdaq rules.

Management is responsible for Beyond Meat's system of internal control over financial reporting, the preparation of its consolidated financial statements in accordance with accounting principles generally accepted in the United States ("GAAP"), and the financial reporting process, including management's assessment of internal control over financial reporting. Deloitte is responsible for performing an independent audit of Beyond Meat's consolidated financial statements and for expressing an opinion, based on the results of its audit, as to whether the consolidated financial statements are fairly presented, in all material respects, in conformity with GAAP.

The audit committee reviewed and discussed with management and the independent auditors the overall scope and process for the audit of the consolidated financial statements and internal control over financial reporting. The audit committee also determined that Deloitte's provision of non-audit services to the company in 2025 was compatible with Deloitte's independence.

The audit committee has reviewed and discussed the company's audited consolidated financial statements for the year ended December 31, 2025 with management. The audit committee has discussed with Deloitte the matters required to be discussed by the applicable requirements of the PCAOB and the SEC. The audit committee has also received the written disclosures and the letter from Deloitte required by applicable requirements of the PCAOB regarding Deloitte's communications with the audit committee concerning independence, and has discussed with Deloitte its independence.

Based on the audit committee's review and discussions noted above, the audit committee recommended to the company's board of directors that such audited financial statements be included in the company's Annual Report on Form 10-K for the year ended December 31, 2025 for filing with the SEC.

Respectfully submitted by the members of the audit committee of the board of directors:

Kathy N. Waller (Chair)

Joshua M. Murray

Alexandre Zyngier

This report of the audit committee is required by the SEC and, in accordance with the SEC's rules, will not be deemed to be part of or incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended (the "Securities Act"), or under the Exchange Act, except to the extent that we specifically incorporate this information by reference, and will not otherwise be deemed "soliciting material" or "filed" under either the Securities Act or the Exchange Act.

Mr. Boken has been a Partner and Managing Director in the Turnaround and Restructuring Services practice at AlixPartners, LLP ("AlixPartners"), an international consultancy firm, for over 6 years and has over 35 years of interim management, corporate turnaround and restructuring experience. As part of his employment at AlixPartners, and a predecessor entity, Zolfo Cooper LLC, Mr. Boken served as Chief Executive Officer of MVK FarmCo LLC dba Prima Wawona from February 2023 to April 2024, as CEO of SolarWorld Americas from January 2018 to July 2022 and as Deputy Chief Restructuring Officer for PG&E Corporation from January 2019 to July 2020, among other executive roles with client companies. Mr. Boken was a Managing Director at Zolfo Cooper LLC, a boutique corporate turnaround and restructuring firm, from July 2002 to November 2018 before Mr. Boken and his partners sold the firm to AlixPartners in November 2018 and combined the practices. Prior to joining Zolfo Cooper LLC in July 2002, Mr. Boken was the Managing Partner of the Los Angeles corporate restructuring practice at Arthur Andersen. Mr. Boken serves on the Board of Directors for The Pasha Group, a privately owned, West Coast-based leader in the shipping, transportation and logistics industry and on the Board of Trustees for the University of Scranton. Mr. Boken holds a BS degree in finance from Santa Clara University and is a Certified Public Accountant (inactive), as well as a member of the Turnaround Management Association.

PROPOSAL NO. 3 ADVISORY (NON-BINDING) VOTE TO APPROVE THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS

Section 14A of the Exchange Act requires us to submit a non-binding, advisory proposal to our stockholders to approve the compensation of our named executive officers as described in this proxy statement in accordance with the compensation disclosure rules of the SEC (commonly known as "Say On Pay"). We ask our stockholders to vote on the following resolution at the Annual Meeting:

"RESOLVED, that the compensation paid to the company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K under the Exchange Act, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED."

This vote is advisory and non-binding on our company, the board of directors and the human capital management and compensation committee. However, the board of directors and the human capital management and compensation committee value the opinions of our stockholders and intend to consider the outcome of the vote when considering future compensation decisions for our named executive officers.

We believe that our executive compensation program creates the proper incentives for our executive officers. As described in greater detail under "Compensation Discussion and Analysis," we have designed our executive compensation program to attract, motivate and retain a team of highly qualified executives who will drive innovation and business success. We believe that our current executive compensation program properly aligns the interests of our executive officers with those of our stockholders. We intend to present this advisory vote on named executive officer compensation to our stockholders on an annual basis.

Vote Required

The advisory (non-binding) vote to approve the compensation of the company's named executive officers requires the affirmative vote of the holders of a majority of the voting power of the shares of our common stock entitled to vote on the proposal that are present in person (which includes by remote communication) or represented by proxy at the Annual Meeting and are voted for or against the proposal. Abstentions are not considered votes for or against this proposal, and thus, will have no effect on the outcome of this proposal. Broker non-votes, if any, will also have no effect on the outcome of this proposal. Although the vote is a non-binding advisory vote, the human capital management and compensation committee will consider the outcome of the voting results in connection with its ongoing evaluation of the company's executive compensation program.

The Board of Directors recommends a vote FOR the approval of the compensation of the company's named executive officers, as disclosed in this proxy statement.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis discusses the compensation of our named executive officers (“NEOs”) for 2025 and is designed to provide our stockholders with an explanation of our executive compensation philosophy and objectives, our executive compensation program and the compensation granted or earned by the following NEOs in 2025:

NAME	TITLE
Ethan Brown	President and Chief Executive Officer
Lubi Kutua	Chief Financial Officer and Treasurer
Dariusz Ajami, PhD	Chief Innovation Officer
Teri L. Witteman	Chief Legal Officer and Secretary
Drew Lufkin	Senior Vice President, Sales

Executive Summary

2025 Business Performance Overview

Financial Overview and Highlights

Net revenues decreased to \$275.5 million in 2025 from \$326.5 million in 2024, representing a 15.6% decrease. We have a history of losses and negative cash flows from operating activities. We have experienced net losses in almost every period since our inception. Although we recorded net income of \$219.0 million in 2025, primarily driven by the gain on debt restructuring, net of exchange fees, of \$548.7 million resulting from the Exchange Offer, we incurred loss from operations of \$333.6 million in 2025 (compared to loss from operations of \$156.1 million and \$341.9 million, in 2024 and 2023, respectively) and net losses of \$160.3 million and \$338.1 million in 2024 and 2023, respectively, as persistent weak demand in the plant-based meat category and for our products, changes in product sales mix and distribution losses in certain channels, among other things, resulted in declines in our net revenues that we were unable to offset with commensurate cost-reductions. In 2025, 2024 and 2023, we incurred negative cash flows from operating activities of \$144.9 million, \$98.8 million and \$107.8 million, respectively.

- (1) Gross profit and gross margin in 2025 included \$5.6 million in accelerated depreciation and \$0.3 million in inventory write-offs related to the cessation of our operational activities in China, and \$6.7 million in non-cash charges arising from an incremental provision for excess and obsolete inventory as a result of SKU rationalization and the decision to discontinue certain product lines.
- (2) Operating expenses in 2025 included: loss from impairment of long-lived assets of \$51.3 million; loss on write-down of assets held for sale of \$49.0 million; a \$38.9 million litigation-related accrual; \$13.3 million in incremental share-based compensation expense related to the Exchange Offer; \$8.1 million in incremental legal and other fees and expenses associated with arbitration proceedings related to a previously-disclosed contractual dispute with a former co-manufacturer; \$2.2 million in certain non-routine selling, general and administrative expenses; \$1.4 million in costs related to a partial lease termination of a portion of the company's campus headquarters building in El Segundo, California; \$1.3 million in reclassification of certain inventory previously identified for donation; and \$1.3 million in expenses related to the cessation of the company's operational activities in China.

Cost-Reduction Initiatives and Global Operations Review

A key component of achieving our long-term business strategy is to achieve cost leadership and continue driving the cost of our products down over time. In response to the difficult environment and the negative impact of certain factors on our business and the overall plant-based meat category, beginning in 2022 we pivoted our focus toward sustainable long-term growth supported by three pillars: (1) driving margin recovery and operating expense reduction through the implementation of lean value streams across our beef, pork and poultry platforms; (2) inventory reduction and cash flow generation through more efficient inventory management; and (3) focusing on near-term retail and foodservice growth drivers while supporting key strategic long-term partners and opportunities.

In 2023, we initiated our review of our global operations (the "Global Operations Review"), which involves narrowing our commercial focus to certain anticipated growth opportunities, and accelerating activities that prioritize gross margin expansion and cash generation. These efforts have to date included or resulted in, and may in the future include or result in, the exit or discontinuation of select product lines; changes to our pricing architecture within certain channels; cash-accretive inventory reduction initiatives; non-cash charges such as provision for excess and obsolete inventory and potential additional impairment charges, write-offs, disposals and accelerated depreciation of fixed assets, and losses on sale and write-down of fixed assets; further optimization of our manufacturing capacity and real estate footprint; workforce reductions; and the cessation of our operational activities in China in 2025.

On February 24, 2025, our board of directors approved a plan to reduce our workforce in North America and the EU by approximately 44 employees, representing approximately 17% of our global non-production workforce (or approximately 6% of our total global workforce) (the "February 2025 RIF"). The decision was based on cost-reduction initiatives intended to reduce operating expenses. In 2025, we recorded one-time cash charges of approximately \$1.2 million in connection with the 2025 February RIF, primarily consisting of severance payments, employee benefits and related costs, in all cases, provided to departing employees and contract termination costs. The February 2025 RIF was substantially complete as of the end of the third quarter of 2025.

In addition, as part of our Global Operations Review, on February 24, 2025, our board of directors approved a plan to suspend our operational activities in China, which ceased as of the end of 2025. As part of this plan, we reduced our workforce in China by approximately 20 employees, representing approximately 95% of our China workforce (or approximately 3% of our total global workforce) (the "China RIF"). The decision to suspend our operational activities in China was based on cost-reduction initiatives intended to reduce operating expenses. In 2025, we recorded one-time cash charges of approximately \$0.4 million in connection with the China RIF, primarily consisting of severance payments, employee benefits and related costs, in all cases, provided to departing employees, and contract termination costs. The China RIF was substantially complete as of the end of the third quarter of 2025.

In addition, as a result of our decision to suspend our operational activities in China, we have recorded \$6.4 million in accelerated depreciation related to the reassessment of useful lives of certain assets in the year ended December 31, 2025. Furthermore, for the year ending December 31, 2026, we expect to record approximately \$2.2 million in accelerated depreciation for our remaining leasehold improvement assets in China. The calculation of the charges we estimate are subject to uncertainties and based on a number of assumptions, including applicable legal requirements and asset disposition plans; the actual charges incurred may differ from the estimates disclosed above.

On August 6, 2025, management approved a plan to further reduce our workforce in North America by approximately 40 employees, representing approximately 5% of our total global workforce (the “August 2025 RIF”). This decision was based on cost-reduction initiatives intended to reduce cost of goods sold and operating expenses. In 2025, we recorded one-time cash charges of approximately \$1.1 million in connection with the August 2025 RIF, primarily consisting of severance payments, employee benefits and related costs, in all cases, provided to departing employees. The August 2025 RIF was substantially complete as of the end of the third quarter of 2025.

In the fourth quarter of 2025, through our transformation office and program led by our interim Chief Transformation Officer, we accelerated the work of our Global Operations Review and implemented further actions intended to, among other things, position the business for a more fundamental resizing of operating expenses, drive margin recovery, including through targeted investments in our facilities and supply chain cost-reductions, reduce inventory and associated carrying costs through SKU rationalization and the discontinuation of certain product lines, and preserve cash and monetize non-strategic or idle assets. In connection with these actions, in the fourth quarter of 2025, we recorded an incremental provision for excess and obsolete inventory in the amount of \$2.4 million as a result of SKU rationalization and the decision to discontinue certain product lines. In addition, we identified certain property, plant and equipment that was no longer deemed core to our strategic objectives or required for our future operations and recorded these assets at estimated fair value, less estimated costs to sell, in Assets held for sale in our consolidated balance sheet as of December 31, 2025, resulting in non-cash charges of \$45.6 million in loss on write-down of assets held for sale recorded in operating expenses in the fourth quarter of 2025.

In addition, as a result of management finalizing its decision to cease our operations in China indefinitely, we also completed an evaluation of our property, plant and equipment in China. Upon valuation of these assets by a third party, assets that were determined to be not salable were fully depreciated, while assets that were determined salable were recorded at estimated fair value, less estimated costs to sell, in Assets held for sale in our consolidated balance sheet as of December 31, 2025, resulting in non-cash charges of \$1.5 million in accelerated depreciation recorded in cost of goods sold and \$3.4 million in loss on write-down of assets held for sale recorded in operating expenses in the fourth quarter of 2025. Furthermore, for the year ending December 31, 2026, we expect to record approximately \$2.2 million in accelerated depreciation for our remaining leasehold improvement assets in China unrelated to the assets held for sale noted above.

2025 Executive Compensation Overview

The cornerstone of our compensation philosophy is pay for performance. We annually assess the financial performance of the company and have designed pay programs to align to the financial performance results, market expectations and criticality of incentivizing certain key employees to continue employment with the company and make substantial contributions for the benefit of the entire corporate enterprise during the period in which the company was exploring and pursuing a value maximizing strategic transaction.

We closely align the compensation paid to our NEOs with achievement of both short- and long-term financial goals. Approximately 91% of the target compensation awarded in 2025 to Ethan Brown, our President and Chief Executive Officer, was performance-based or at risk, and approximately 83% of the target compensation awarded in 2025 to our other NEOs, as a group, was performance-based or at risk.

Alignment Between 2025 Performance and Executive Compensation

Limited Payouts Under Our Short-Term Incentive (“STI”) Plan

For 2025, based on the recommendation of WTW, our human capital management and compensation committee determined that it was advisable to modify our STI plan design in light of the business challenges and overall operating uncertainty, in order to ensure the overall motivation, engagement and retention of plan participants. For 2025, in lieu of an annual plan, our human capital management and compensation committee approved an STI plan with five performance periods (quarterly and the full year), with 15% of total funding allocated to each quarterly performance period and 40% of total funding allocated to the annual performance period. The objectives in modifying the plan included: (1) allowing for the establishment of credible performance goals in the uncertain and variable environment; (2) engaging participants in the achievement of pressing business priorities and their accountability for those priorities (and ultimately to the company’s stakeholders); (3) supporting frequent communication about company priorities throughout 2025; and (4) enhancing employee retention.

Upon the completion of 2025, our human capital management and compensation committee reviewed the company’s performance against the predetermined quarterly and annual performance goals and determined the following level of achievement and funding under our executive incentive bonus plan (the “Bonus Plan”) for 2025 performance, resulting in limited annual cash incentive payments under the Bonus Plan to our NEOs in 2025, as discussed below under “STI Cash Payments”:

PERFORMANCE METRIC	METRIC WEIGHTING	Q1 2025 (\$M)	Q1 2025 FUNDING	Q2 2025 (\$M)	Q2 2025 FUNDING	Q3 2025 (\$M)	Q3 2025 FUNDING	Q4 2025 (\$M)	Q4 2025 FUNDING	FY 2025 (\$M)	FY 2025 FUNDING
Net Revenues \$(M)	33.3%	\$68.7	52.8%	\$75.0	0.0%	\$70.2	0.0%	\$61.6	0.0%	\$275.5	0.0%

Weighted Period Funding			5.9%		6.1%		3.4%		9.6%		12.2%
Total Funding⁽³⁾											37.1%

- (1) In determining the actual level of achievement of the gross margin goal, the human capital management and compensation committee excluded the non-routine charges in 2025 recorded in cost of goods sold in the Company’s consolidated financial statements as described in the footnotes to the table below under “Executive Incentive Bonus Plan—2025 Corporate Performance Goals and Achievement.”
- (2) In determining the actual level of achievement of the operating expenses goal, the human capital management and compensation committee excluded the non-routine charges in 2025 recorded in operating expenses in the Company’s consolidated financial statements as described in the footnotes to the table below under “Executive Incentive Bonus Plan—2025 Corporate Performance Goals and Achievement 2025.”
- (3) The payout (weighted percentage of achievement) for each performance goal is calculated using linear interpolation to determine the funding percentage when achievement falls between performance thresholds, which percentage is then multiplied by the metric weighting and the period weighting for the applicable performance goal, with the resulting funding percentage for all performance periods added together to determine the total funding percentage.

Management Incentive Awards

On September 29, 2025, in connection with the Exchange Offer, we implemented a management incentive plan in order to retain and incentivize key employees in light of the substantial dilution presented as a result of the Exchange Offer and the future conversion or equityization of the 2030 Notes (including any 2030 Notes issued as paid-in-kind interest) into shares of our common stock, or payment of accrued interest or make-whole payments on the 2030 Notes in the form of our common stock. Accordingly, our board of directors granted RSUs and performance stock units (“PSUs”) under the Restated Plan (“MIP Awards”) to certain key employees, including our NEOs. Each MIP Award recipient was granted awards with respect to a number of shares of our common stock equal to a specified percentage of the Fully-Diluted Shares Outstanding (as defined in the Restated Plan) on October 31, 2025, the date following the final settlement date of the Exchange Offer, as described below under “Equity Plan—2025 Equity Awards.”

Key Employee Performance Awards

In 2025, to incentivize certain key employees, including our NEOs, to continue employment with the company and make substantial contributions for the benefit of the entire corporate enterprise during the period in which the company was exploring and pursuing a value maximizing strategic transaction, our human capital management and compensation committee approved one-time, performance-based cash awards for certain key employees, including our NEOs, pursuant to our Bonus Plan, subject to continued employment, repayment and certain other obligations, as described below under “Compensation Discussion and Analysis—2025 NEO Compensation Details—Executive Incentive Bonus Plan—Key Employee Performance Awards.”

How the Board of Directors is Addressing Feedback About Our Compensation Program

Our board of directors and human capital management and compensation committee deem stockholder input essential and will continue to consider stockholder views in the evolution of our executive compensation program. The majority of the stockholders who voted on our Say on Pay proposal at our 2025 annual meeting, representing approximately 87% of total votes cast, voted in support of our Say on Pay proposal.

In 2023, we launched a formal stockholder outreach program, which included attendance by the chair of our human capital management and compensation committee, in order to solicit additional input from stockholders on board composition, governance practices and policies, executive compensation framework, and other matters related to our strategy and performance. At the time of our outreach in 2023, our institutional ownership totaled approximately 39% of our issued and outstanding shares. In 2023, we solicited the views of our top institutional investors that we believe represented approximately 24% of our issued and outstanding shares and had discussions with and received feedback from investors representing approximately 19% of our then issued and outstanding shares.

In 2024, we continued our formal stockholder outreach program. At the time of our outreach in 2024, our institutional ownership totaled approximately 36% of our issued and outstanding shares. We solicited the views of our top institutional investors that we believe represented approximately 23% of our issued and outstanding shares as of August 7, 2024. We had discussions with and received feedback from investors representing approximately 17% of our then issued and outstanding shares.

Feedback from our stockholder outreach program relating to executive compensation matters was shared with and considered by our human capital management and compensation committee. Stockholder feedback received in 2023 and 2024 was generally supportive of the design of our executive compensation program.

In response to stockholder feedback received in 2023, our human capital management and compensation committee made certain changes to our executive compensation program beginning in 2024:

- **Adjustments to peer group for compensation benchmarking.** In 2024, our peer group was revised to include only food and beverage companies within a relevant size range and remove biotechnology, pharmaceuticals and life sciences, and high-growth companies. For 2025, based upon input from management and the recommendation of WTW, our human capital management and compensation committee revised the peer group to include food and beverage and personal care product companies within a relevant size range based on revenues, market capitalization and headcount, and removed companies that have been acquired or taken private, changed business models or characteristics, or have extraordinarily low market capitalization. For 2026, based upon input from management and the recommendation of WTW, our human capital management and compensation committee further revised the peer group and removed nine companies outside the size range used to determine peers and added eight new companies that meet the screening criteria.
- **Introduction of performance-based long-term incentives.** During our stockholder outreach program in 2023, certain stockholders expressed a preference for a stronger performance component in our long-term incentive (“LTI”) plan design. As a result, in 2024, we introduced PSUs for 50% of our CEO’s and CFO’s 2024 LTI awards (in lieu of stock options), with vesting based on the Company’s total shareholder return (“TSR”) relative to a TSR comparator group (“Relative TSR Performance”) for each performance period. The introduction of PSUs was intended to further align executives’ long-term pay with share price movement. In 2025, our executive compensation program was refocused in light of the financial and operational challenges facing the company, as well as the Exchange Offer. On September 29, 2025, in connection with the Exchange Offer, we granted the MIP Awards to certain NEOs in order to retain and incentivize key employees in light of the substantial dilution presented as a result of the Exchange Offer and the future conversion or equitization of the 2030 Notes (including any 2030 Notes issued as paid-in-kind interest) into shares of our common stock, or payment of accrued interest or make-whole payments on the 2030 Notes in the form of our common stock. A portion of the MIP Awards (10% of the total MIP Awards granted to each NEO) were granted in the form of time-vested RSUs, all of which vested in full on December 31, 2025 (the “Immediate Vesting RSUs”). Mr. Lufkin’s MIP Awards were granted to him on December 11, 2025. A portion of the MIP Awards (45% of the total MIP Awards (at maximum) for Messrs. Brown and Lufkin and Dr. Ajami and 67.5% of the total MIP Awards (at maximum) for Mr. Kutua and Ms. Witteman) were granted in the form of time-vested RSUs (the “Extended Vesting RSUs,” and

together with the “Immediate Vesting RSUs,” the “MIP RSU Awards”), with 50% of the Extended Vesting RSUs vesting on December 31, 2026, and the remainder vesting in four equal quarterly installments thereafter with the last vesting date being December 31, 2027, subject to continued service through the applicable vesting date. A substantial portion of the MIP Awards (45% of the total MIP Awards (at maximum) for Messrs. Brown and Lufkin and Dr. Ajami and 22.5% of the total MIP Awards (at maximum) for Mr. Kutua and Ms. Witteman) were granted in the form of PSUs (the “MIP PSUs”). The MIP PSUs will be earned based on the achievement of annual performance goals measured over two annual performance periods (2026 and 2027), with performance goals to be set based on metrics to be established at the beginning of each year by our board of directors upon recommendation from our human capital management and compensation committee.

In light of the substantial transactions undertaken by the company during 2025, the timing of the Exchange Offer and the special meeting of stockholders held on November 19, 2025, we did not engage in a formal stockholder outreach program in 2025; however, we intend to resume this program in 2026. Our outreach efforts are conducted by a cross-functional team which may include employees and members of management from finance, investor relations, legal, ESG and corporate governance, as well as board representation, including the chair of our human capital management and compensation committee. Additionally, our chief executive officer and chief financial officer are engaged in meaningful dialogue with our stockholders through our quarterly earnings calls and investor-related outreach events.

In October 2024, our board of directors adopted stock ownership guidelines for outside directors to strengthen the alignment of interests between our non-employee directors and stockholders. As of December 31, 2025, each non-employee director was in compliance with the applicable stock ownership guidelines or on track to achieve compliance within the allotted five-year time frame. As presented under “Security Ownership of Certain Beneficial Owners and Management” beginning on page 131, the number of shares beneficially owned as of the Record Date by our President and Chief Executive Officer, Mr. Brown, was 5,239,834, which represents approximately 1.1% of the shares of common stock outstanding, and approximately 7.8-times Mr. Brown’s annual base salary, in each case, as of the Record Date.

Compensation Practices and Governance Policies

WHAT WE DO	WHAT WE DON'T DO
<p>✓ Pay for Performance. Performance-based or at risk pay represented a significant portion of our NEOs' target total direct compensation ("Target TDC") in 2025.</p>	<p>✗ No Excessive Risks. Annual risk assessment of executive compensation program to ensure no excessive risk taking.</p>
<p>✓ Align the Interests of Our NEOs with Those of Our Stockholders. Equity compensation represented a significant portion of our NEOs' Target TDC in 2025.</p>	<p>✗ No Excessive Change in Control Payments. Cash change in control payments do not exceed two times annual target cash compensation.</p>
<p>✓ Maximum Payout Caps. Our annual bonus plan maintains maximum payout caps on annual bonuses based on achievement of annual performance goals to avoid excessive payments and risk-taking.</p>	<p>✗ No Excise Tax Gross Ups. We do not provide for "golden parachute" excise tax gross ups.</p>
<p>✓ All Change in Control Payments Under the CIC Severance Arrangements Are Double Trigger. Double trigger includes a change in control of our stock ownership as well as termination of employment.</p>	<p>✗ No Excessive Perks. We do not provide any excessive perquisites to our NEOs.</p>
<p>✓ Independent Compensation Committee. Our human capital management and compensation committee is composed solely of independent directors.</p>	<p>✗ No Hedging or Pledging. All employees, including our NEOs, and our directors are prohibited from engaging in hedging or pledging our stock as collateral for a loan.</p>
<p>✓ Independent Compensation Consultant. Our human capital management and compensation committee directly retains an independent compensation consultant.</p>	
<p>✓ Clawback Policy. We maintain a mandatory clawback policy in compliance with SEC rules and Nasdaq listing standards. Our clawback policy provides that the company shall recover from current or former executive officers excess incentive-based compensation (i.e., incentive compensation that is granted, earned or vested based in whole or in part on the attainment of one or more financial reporting measures) in the event the company is required to prepare an accounting restatement, unless our human capital management and compensation committee determines that recovery would be impracticable.</p>	
<p>✓ Annual Say on Pay Vote. We conduct an annual advisory vote on the compensation of our NEOs.</p>	
<p>✓ Annual Compensation Peer Group Review. Our human capital management and compensation committee reviews the composition of our compensation peer group annually and adjusts the composition of that peer group, if deemed appropriate.</p>	
<p>✓ Introduction of PSUs. In 2024, we introduced PSUs for 50% of our CEO's and CFO's 2024 LTI awards. In 2025, PSUs were included as part of the MIP Awards.</p>	

Our Compensation Philosophy

We have designed our executive compensation program to attract, motivate and retain a team of highly qualified executives who will drive innovation and business success. In order to motivate and reward our NEOs for work that improves our long-term business performance and increases stockholder value, we have set out the following objectives:

- Align NEO compensation to the success of our business objectives;
- Align the interests of NEOs and stockholders with the goal of creating long-term stockholder value;
- Provide competitive compensation that attracts, motivates and retains top-performing NEOs; and
- Motivate NEOs to achieve results that exceed our strategic plan targets.

2025 NEO Compensation Details

Our three core elements of NEO direct compensation are base salary, an annual cash STI opportunity and long-term incentive equity awards. In 2025, to incentivize certain key employees, including our NEOs, to continue employment with the company and make substantial contributions for the benefit of the entire corporate enterprise during the period in which the company was exploring and pursuing a value maximizing strategic transaction, our human capital management and compensation committee approved one-time, performance-based cash awards for certain key employees, including our NEOs, pursuant to our Bonus Plan. In addition, in 2025, in order to retain and incentivize key employees in light of the substantial dilution presented as a result of the Exchange Offer and the future conversion or equitization of the 2030 Notes, our board of directors granted MIP Awards to certain key employees, including our NEOs. Each MIP Award recipient was granted awards with respect to a number of shares of our common stock equal to a specified percentage of the Fully-Diluted Shares Outstanding on October 31, 2025, the date following the final settlement date of the Exchange Offer, as described below under “Equity Plan—2025 Equity Awards.”

The graphics below reflect the approximate general distribution of these elements of NEO Target TDC awarded during 2025, with the MIP RSUs included based on grant date fair value under FASB ASC Topic 718. As of December 31, 2025, none of the MIP PSUs were deemed granted for purposes of FASB ASC Topic 718 pending establishment of the applicable performance metrics. As a result, the graphics below exclude the MIP PSUs.

The above calculations include: (i) full annual base salary at highest level for each NEO including Mr. Brown (\$675,000), Mr. Kutua (\$450,000), Dr. Ajami (\$452,000), Ms. Witteman (\$427,000) and Mr. Lufkin (\$400,000); (ii) full cash STI bonus at target for each NEO, including Mr. Brown (\$675,000), Mr. Kutua (\$270,000), Dr. Ajami (\$271,200), Ms. Witteman (\$256,200) and Mr. Lufkin (\$240,000); (iii) one-time, performance-based cash awards for each NEO, including Mr. Brown (\$2,250,000), Mr. Kutua (\$600,000), Dr. Ajami (\$330,000), Ms. Witteman (\$600,000) and Mr. Lufkin (\$140,000); and (iv) Immediate Vesting RSUs and Extended Vesting RSUs included in the MIP Awards and associated Anti-Dilution Awards granted in 2025 for each NEO at grant date fair value, including Mr. Brown (\$26,701,431), Mr. Kutua (\$6,642,525), Dr. Ajami (\$3,337,681), Ms. Witteman (\$4,549,675) and Mr. Lufkin (\$582,239). As of December 31, 2025, none of the MIP PSUs were deemed granted for purposes of FASB ASC Topic 718 pending establishment of the applicable performance metrics. As a result, the above calculations exclude the MIP PSUs.

Base Salary

Base salaries compensate our NEOs for expected levels of day-to-day performance and are determined by each NEO's role and responsibilities, pay at comparable companies, our budget for the coming year, and the resulting total target compensation that can be earned given the individual's base salary, related target cash STI opportunity and equity awards. Base salaries reflect a minority of total target compensation, with desired positioning generally aligned with at-market levels of the competitive talent market. The base salaries for Messrs. Brown and Kutua were increased for 2025 as provided in the table below to better align them with the median base salaries of comparable executives in our peer group.

The base salaries for each of our NEOs for 2025 and 2024 are summarized below.

NEO	2025 BASE SALARY (\$) ⁽¹⁾	2024 BASE SALARY (\$) ⁽¹⁾	PERCENT INCREASE
Ethan Brown	675,000	500,000	35.0%
Lubi Kutua	450,000	390,000	15.4%
Darius Ajami, PhD	452,000	440,000	2.7%
Teri L. Witteman	427,000	415,000	2.9%
Drew Lufkin	400,000	400,000	0.0%

(1) Annualized base salary based on the rate in effect as of the last day of the year. The actual amounts of base salary earned in 2025 and 2024 are reported below under "Summary Compensation Table."

Executive Incentive Bonus Plan

STI Cash Incentives

The annual STI awards to our NEOs are granted under our Bonus Plan. Our Bonus Plan allows our human capital management and compensation committee to approve cash awards to selected officers and employees, including our NEOs, based upon performance goals established by our human capital management and compensation committee and tied to the performance criteria enumerated in the Bonus Plan. Bonus payments under the Bonus Plan are earned by our NEOs if we achieve specified performance goals. We consider these cash payments to be performance-based compensation since payouts are directly tied to achievement of performance goals.

Performance goals under the Bonus Plan can be tied to financial, operational, strategic or other key objectives, and may be measured over performance periods of any length, in each case as determined by our human capital management and compensation committee. While our human capital management and compensation committee awards annual cash STI opportunities to our NEOs under the Bonus Plan, other types of performance-based cash awards could be granted under the Bonus Plan in accordance with its terms. Performance goals that include our financial results may be determined in accordance with GAAP or such financial results may consist of non-GAAP financial measures, and any goals or actual results may be adjusted by our human capital management and compensation committee for any reason, including without limitation, one-time items or unbudgeted or unexpected items, when determining whether the performance goals have been met.

Our human capital management and compensation committee may, in its sole discretion and at any time, increase, reduce or eliminate an award otherwise payable to a participant with respect to any performance period.

Awards are typically subject to continued employment through the date the bonus is paid unless otherwise determined by our human capital management and compensation committee. Our board of directors or our human capital management and compensation committee has the authority to amend, alter, suspend or terminate the Bonus Plan, provided such action does not impair the existing rights of any participant with respect to any earned bonus.

For 2025, based on the recommendation of WTW, our human capital management and compensation committee determined that it was advisable to modify our STI plan design in light of the business challenges and overall operating uncertainty, in order to ensure the overall motivation, engagement and retention of plan participants. For 2025, in lieu of an annual plan, our human capital management and compensation committee approved an STI plan with five performance periods (quarterly and the full year), with 15% of total funding allocated to each quarterly performance period and 40% of total funding allocated to the annual performance period, with metrics and goals finalized and approved prior to the start of each quarterly performance period (and which differed for each quarterly performance period), and based on the company's annual operating plan for the annual performance period. The objectives in modifying the plan included: (1) allowing for the establishment of credible performance goals in the uncertain and variable environment; (2) engaging participants in the achievement of pressing business priorities and their accountability for those priorities (and ultimately to the company's stakeholders); (3) supporting frequent communication about company priorities throughout 2025; and (4) enhancing employee retention. The human capital management and compensation committee intends to continue with a similar STI plan design for 2026.

For 2025, our human capital management and compensation committee approved quarterly and annual performance goals under the Bonus Plan, including threshold performance goals for each performance metric which must be achieved before there is any funding for the performance metric under the Bonus Plan. Threshold achievement produces funding of 50% of target with respect to each such goal. For 2025, the quarterly and annual threshold funding goals are set forth in the table below under "2025 Corporate Performance Goals and Achievement."

In addition to threshold funding goals, except with respect to the first quarterly 2025 performance period, our human capital management and compensation committee approved threshold (50%), target (100% funding), stretch target (150% funding) and maximum (200% funding) funding goals with respect to each performance goal that determine how much of the target may be paid to each NEO at each level of achievement of our performance goals. In June 2025, our human capital management and compensation committee approved final performance goals for the annual, first quarter and second quarter 2025 performance periods, and preliminary performance goals for the third and fourth quarter 2025 performance periods. The 2025 STI plan design provided that at least two weeks prior to the end of each

quarter the Company may update such performance goals for the ensuing quarter based on the latest forecast and present such updated performance goals to our human capital management and compensation committee for approval; provided that if no such updates are provided for approval, then such preliminary performance goals shall be deemed approved. On September 12, 2025, the Company provided updated performance goals for the fourth quarter 2025 performance period which were approved by our human capital management and compensation committee and are set forth in the table below under “2025 Corporate Performance Goals and Achievement.”

STI Cash Targets

Our human capital management and compensation committee set annual cash STI targets for each of our NEOs under the Bonus Plan. The annual cash STI targets represent the cash STI compensation that an NEO could earn if we achieve our quarterly and annual performance goals for the year. Targets are expressed as a percentage of the NEO’s base salary. In reviewing annual cash STI targets, our human capital management and compensation committee takes into consideration each NEO’s role and responsibilities, pay at comparable companies and the resulting total target compensation. The table below details the annual cash STI targets for our NEOs in 2025. No changes in the STI targets were made in 2025.

NEO	2025 CASH STI TARGET (% OF BASE SALARY)
Ethan Brown	100%
Lubi Kutua	60%
Dariusz Ajami, PhD	60%
Teri L. Witteman	60%
Drew Lufkin	60%

STI Performance Goals

Our human capital management and compensation committee follows a robust target setting process for annual awards under the Bonus Plan, which considers, among other things, the company’s annual operating plan and external indicators, such as the economic environment and analyst perspectives. In 2025, we established performance goals for our NEOs based on corporate performance metrics, rather than a mix of corporate and individual metrics, to foster teamwork among our NEOs and reflect the importance of company-wide performance to stockholder value.

COMPENSATION DISCUSSION AND ANALYSIS

Our 2025 corporate goals were designed to align with the company's 2025 continued focus toward sustainable long-term growth supported by three pillars: (1) driving margin recovery and operating expense reduction through the implementation of lean value streams across our beef, pork and poultry platforms; (2) inventory reduction and cash flow generation through more efficient inventory management; and (3) focusing on near-term retail and foodservice growth drivers while supporting strategic key long-term partners and opportunities. Our human capital management and compensation committee believed these performance goals in the construct of the 2025 STI plan design encouraged our NEOs to focus on execution of company strategy and priorities and their accountability to those priorities on a quarterly and annual basis. Our 2025 corporate goals and the rationale for each of these goals is summarized in the table below.

PERFORMANCE GOAL	RATIONALE
Net revenues	Incentivizes revenue growth and rewards efforts to grow and expand our business
Gross margin	Incentivizes gross margin expansion to achieve and/or sustain our profitability and financial performance objectives
Operating expenses	Incentivizes cost management and expense reduction

2025 Corporate Performance Goals and Achievement

Our 2025 quarterly and annual corporate performance goals, as established by our human capital management and compensation committee, and the level of achievement for each goal based on our final audited consolidated financial results, are set forth in the table below.

(1) The 2025 STI plan design was approved by our human capital management and compensation committee after completion of the first quarter of 2025 in June 2025. As a result, our human capital management and compensation committee did not approve maximum and stretch performance goals for the first quarter of 2025.

- (2) In June 2025, our human capital management and compensation committee approved final performance goals for the annual, first quarter and second quarter 2025 performance periods, and preliminary performance goals for the third and fourth quarter 2025 performance periods. The 2025 STI plan design provided that at least two weeks prior to the end of each quarter the company would update such performance goals for the ensuing quarter based on the latest forecast and present such updated performance goals to our human capital management and compensation committee for approval; provided that if no such updates were provided for approval, then such preliminary performance goals would be deemed approved. On September 12, 2025, the company provided updated performance goals for the fourth quarter 2025 performance period which were approved by our human capital management and compensation committee and are set forth in the table above. As a result of the 2025 STI plan design and performance goal setting process described above under “Executive Incentive Bonus Plan—STI Cash Incentives,” the annual performance metrics were not designed to aggregate to the quarterly performance metrics.
- (3) In determining the actual level of achievement of the gross margin goal, the human capital management and compensation committee excluded the following non-routine charges in 2025 recorded in cost of goods sold in the Company’s consolidated financial statements for the respective periods indicated (unaudited):

(in thousands)	Q1 2025	Q2 2025	Q3 2025	Q4 2025	FY 2025

STI Cash Payments

Upon the completion of 2025, our human capital management and compensation committee reviewed the company's performance against the predetermined quarterly and annual performance goals and determined the following level of achievement and funding under the Bonus Plan for 2025 performance:

PERFORMANCE METRIC	METRIC WEIGHTING	Q1 2025 (\$M)	Q1 2025 FUNDING	Q2 2025 (\$M)	Q2 2025 FUNDING	Q3 2025 (\$M)	Q3 2025 FUNDING	Q4 2025 (\$M)	Q4 2025 FUNDING	FY 2025 (\$M)	FY 2025 FUNDING

Weighted Period Funding			5.9%		6.1%		3.4%		9.6%		12.2%
Total Funding⁽³⁾											37.1%

- (1) In determining the actual level of achievement of the gross margin goal, the human capital management and compensation committee excluded the non-routine charges in 2025 recorded in cost of goods sold in the Company's consolidated financial statements as described in the footnotes to the table above.
- (2) In determining the actual level of achievement of the operating expenses goal, the human capital management and compensation committee excluded the non-routine charges in 2025 recorded in operating expenses in the Company's consolidated financial statements as described in the footnotes to the table above.
- (3) The payout (weighted percentage of achievement) for each performance goal is calculated using linear interpolation to determine the funding percentage when achievement falls between performance thresholds, which percentage is then multiplied by the metric weighting and the period weighting for the applicable performance goal, with the resulting funding percentage for all performance periods added together to determine the total funding percentage.

Based on the level of achievement of the 2025 performance goals, the following Bonus Plan payments were approved and paid to our NEOs in 2026 in recognition of performance in 2025.

NEO	2025 BASE SALARY (\$)	2025 CASH STI TARGET (% OF BASE SALARY)	2025 CASH STI TARGET AMOUNT (\$)	ACTUAL WEIGHTED FUNDING (% OF TARGET)	2025 ACTUAL CASH STI PAYMENT (\$)
Ethan Brown	675,000	100%	675,000	37.1%	250,425

Dariush Ajami, PhD	452,000	60%	271,200	37.1%	100,615
Teri L. Witteman	427,000	60%	256,200	37.1%	95,050
Drew Lufkin	400,000	60%	240,000	37.1%	89,040

Key Employee Performance Awards

In 2025, to incentivize certain key employees, including our NEOs, to continue employment with the company and make substantial contributions for the benefit of the entire corporate enterprise during the period in which the company was exploring and pursuing a value maximizing strategic transaction, including the raising of financing or fundraising, a refinancing or a recapitalization, exchange or reorganization of the company, a restructuring, tender, exchange, refinancing, repayment, retiring or amending of the 2027 Notes prior to maturity, and/or a third-party providing financing to the company resulting in gross proceeds to the company of at least \$100 million (a “Transaction”), our human capital management and compensation committee approved one-time, performance-based cash awards (“Performance Awards”) for certain key employees, including our NEOs, pursuant to our Bonus Plan.

Our human capital management and compensation committee consulted with WTW and our outside legal counsel in connection with developing the Performance Awards to ensure consistency with market practices for comparable programs instituted by companies in significant restructuring situations and other relevant considerations. The Performance Award program was designed to provide incentives to the participants to drive the company towards achievement of a Transaction in the near term, while providing them with an award that encouraged retention given the value of their then-existing equity grants was uncertain. Our human capital management and compensation committee considered the overall cost of the Performance Awards relative to market comparables for similar programs instituted by companies facing similar periods of uncertainty. In addition, the special transaction committee of the board formed in June 2024 to carry out the powers, responsibilities and obligations related to, among other things, the review, consideration, evaluation and negotiation of one or more potential refinancing transactions of the 2027 Notes and potential strategic alternatives available to the company, including the Exchange Offer, reviewed the terms of the Performance Awards and upon the advice of WTW and outside legal counsel, determined that the Performance Awards were appropriate and in the best interests of the company and it recommended that our human capital management and compensation committee approve the same.

The Performance Awards were made pursuant to a written bonus agreement entered into with each participant (“Performance Award Agreement”). Pursuant to the Performance Award Agreement, the Performance Award was paid upon execution of definitive documentation relating to a Transaction. The consummation of the \$100.0 million senior secured delayed-draw term loan facility with Unprocessed Foods, LLC, an affiliate of the Ahimsa Foundation, was determined to satisfy the requirement for the completion of a Transaction, and as a result, the Performance Awards were paid to the NEOs. The Performance Awards are subject to repayment on an after-tax basis for a 12-month period (24-months in the case of Mr. Brown) if the recipient resigns for any reason (other than for “good reason” in the case of Mr. Brown) or is terminated for “cause” (as defined in the Performance Award Agreement) during such period. If the recipient is terminated by the company without cause, or the participant’s employment is terminated due to death or “disability” (as defined in the Performance Award Agreement), in each case during such period, subject to execution and non-revocation of a general release of claims in favor of the company, no repayment obligation will apply. In addition, the Performance Award Agreement with Mr. Brown included additional restrictions on his sale, transfer or other disposition of shares of our common stock until December 31, 2025.

The following Performance Awards were paid to each of our NEOs in 2025:

NEO	KEY EMPLOYEE PERFORMANCE AWARD (\$)
Ethan Brown	2,250,000
Lubi Kutua	600,000
Dariusz Ajami, PhD	330,000
Teri L. Witteman	600,000
Drew Lufkin	140,000

Equity Awards

We believe that equity awards align the interests of our NEOs with the long-term interests of our stockholders by rewarding long-term value creation measured by our stock price and by providing retention incentives through multi-year vesting periods. Executives typically receive their target equity award value in the form of (i) a new hire equity award or (ii) an annual equity award for continuing executives; however, equity awards may be granted to our executives under other circumstances, such as for additional incentives or retention purposes, as was the case with the MIP Awards during 2025. Equity awards to our NEOs are typically awarded in the form of stock options, RSUs and/or PSUs.

In 2025, in light of the MIP Awards described below, there were no annual equity awards granted to our NEOs.

Stock Options

The purpose of our stock option grants is to align the interests of our NEOs and stockholders through incentivizing long-term stock price growth. Stock options typically vest over four years from the vesting commencement date, with 25% vesting after year one and monthly thereafter, and encourage long-term performance as they are only valuable if our stock price increases over time, as the awards vest. We consider stock options to be performance-based compensation given that options are at-the-money at the time of grant and have no immediate realizable gain unless the company’s stock price increases. We did not grant any stock options to our NEOs in 2025.

Restricted Stock Units

The purpose of our RSU grants is to align our NEOs’ interests with long-term stockholder value creation, encourage executive retention and manage dilution. RSUs granted to new hires or as part of our annual award program typically vest over four years from the vesting commencement date, with 25% vesting after year one and quarterly thereafter, which encourages long-term performance and helps to hold NEOs accountable for their decision-making given that the RSUs are directly subject to increases and decreases in our stock price, further aligning NEO and stockholder interests. Our human capital management and compensation committee may, however, grant RSUs that vest on different schedules as it deems appropriate. The RSUs granted as part of the MIP Awards vest on a different vesting schedule that was specifically designed to maximize the incentive and retentive value of those awards.

Performance Stock Units

Beginning in 2024, we introduced PSUs as part of our annual awards for certain of our NEOs. The introduction of PSUs as part of our annual award program is intended to further align executives' long-term pay not only with share price movement but also with other financial and/or operational imperatives.

PSUs are a type of LTI award earned based on company performance over a multi-year period, expressed as a "unit" with underlying value tied to the company stock price. The number of units earned is based on performance outcomes over the performance period, with units earned settled in the form of cash, in shares of company stock (which have an aggregate fair market value equal to the value of the earned units) or in a combination thereof, as determined by the human capital management and compensation committee, as plan administrator, in its sole discretion, after the performance results are confirmed.

MIP Awards

On September 29, 2025, the MIP Awards were granted to certain NEOs in order to retain and incentivize key employees in light of the substantial dilution presented as a result of the Exchange Offer and the future conversion or equityization of the 2030 Notes (including any 2030 Notes issued as paid-in-kind interest) into shares of our common stock, or payment of accrued interest or make-whole payments on the 2030 Notes in the form of our common stock. On such date, each MIP Award recipient was granted awards with respect to a number of shares of our common stock equal to a specified percentage of the Fully-Diluted Shares Outstanding on October 31, 2025, the date following the final settlement date of the Exchange Offer. The number of Fully-Diluted Shares Outstanding on October 31, 2025 was 552,076,973. Mr. Lufkin's MIP Awards were granted to him on December 11, 2025.

A portion of the MIP Awards (10% of the total MIP Awards granted to each NEO) were granted in the form of Immediate Vesting RSUs, all of which vested in full on December 31, 2025. A portion of the MIP Awards (45% of the total MIP Awards (at maximum) for Messrs. Brown and Lufkin and Dr. Ajami and 67.5% of the total MIP Awards (at maximum) for Mr. Kutua and Ms. Witteman) were granted in the form of Extended Vesting RSUs, with 50% of the Extended Vesting RSUs vesting on December 31, 2026, and the remainder vesting in four equal quarterly installments thereafter with the last vesting date being December 31, 2027, subject to continued service through the applicable vesting date.

A portion of the MIP Awards (45% of the total MIP Awards (at maximum) for Messrs. Brown and Lufkin and Dr. Ajami and 22.5% of the total MIP Awards (at maximum) for Mr. Kutua and Ms. Witteman) was granted in the form of PSUs. MIP PSU recipients will be eligible to vest in an amount ranging from 50% to 150% of the “target” MIP PSUs based on performance; there will be no payout for performance below the threshold level. MIP PSU recipients will have the opportunity to “catch up” and earn any MIP PSUs not earned during the first performance period based on overachievement relative to the performance goals established for 2027 by our board of directors upon recommendation from the human capital management and compensation committee.

Upon a change in control, the MIP PSUs will be deemed earned at “target” for any performance period that is incomplete or has not yet commenced, which MIP PSUs will vest in equal installments on the last day of any such remaining incomplete or remaining performance period(s), subject to continued service through the last day of the applicable incomplete or remaining performance period(s). Any earned MIP PSUs for any completed performance period that have not yet vested as of the date of the change in control (due to the fact the applicable certification date had not yet occurred) will vest upon the change in control based on actual performance, subject to the individual's continued service through the date of the change in control.

In determining the size of the MIP Awards, our board of directors considered the recommendation of our human capital management and compensation committee and transaction committee, as well as the competitive market analysis provided by WTW, the independent compensation consultant to the human capital management and compensation committee and our board of directors. The size of the individual MIP Awards were the result of an extensive benchmarking process pursuant to which our board of directors, the human capital management and compensation committee and transaction committee reviewed market equity plan comparison information based on our peer group and other market perspectives prepared by WTW, along with market data related to competitive target total direct compensation opportunities for the MIP Award recipients following the substantial dilution expected as a result of the Exchange Offer.

Our board of directors, human capital management and compensation committee and transaction committee also considered each NEO's existing equity award holdings and the impact on such holdings of the substantial dilution from the Exchange Offer, each NEO's role and responsibilities, pay at comparable companies and the criticality of each individual to our company and our long-term goals.

The MIP Awards are intended to serve as the long-term equity incentives for our NEOs for the two-year period covered by such awards. As such, in determining the size of the MIP Awards, our board of directors, human capital management and compensation committee and transaction committee considered the target total compensation (exclusive of the one-time cash Performance Awards) for comparable positions in our peer group and intended for the MIP Awards, together with the NEOs' other compensation, to represent a total target compensation opportunity that approximated the median of the peer group based on the anticipated equity value of the company following the Exchange Offer based on the assumptions provided by the company's financial advisors at the time of the launch of the Exchange Offer and the approval of the MIP Awards.

Anti-Dilution Awards

The MIP Awards are eligible for anti-dilution protection in the event of any "Anti-Dilution Increases" (as defined below) to the share reserve under the Restated Plan, which additional awards (the "Anti-Dilution Awards") will be subject to the same vesting schedules as the corresponding MIP Awards (or, if such Anti-Dilution Increases occur following the vesting of the corresponding MIP Awards, subject to continued service through the date of the Anti-Dilution Increase). Upon each Anti-Dilution Increase, additional RSUs and/or PSUs will be automatically granted to the holder of a MIP Award as described in the MIP Award agreements, which Anti-Dilution Awards are intended to protect the holders of the MIP Awards from future dilution resulting from the issuance of additional shares of our common stock in respect of the 2023 Notes.

Under the Restated Plan, on any date following the closing of the Exchange Offer on which shares of our common stock are issued in respect of the 2030 Notes, including the conversion or equitization of the 2030 Notes (including any 2030 Notes issued as paid in kind interest) into shares of our common stock, or payment of accrued interest or make-whole payments in the form of our common stock, or otherwise, an additional number of shares equal to 12.5% (rounded up to the nearest whole share) of the total number of additional shares so issued will be added to the share reserve under the Restated Plan. Each increase pursuant to this paragraph is referred to as an "Anti-Dilution Increase."

The table below shows the MIP Awards granted to our NEOs in 2025, excluding the Anti-Dilution Awards in 2025 shown in the table that follows and any future Anti-Dilution Awards.

- (1) Each NEO received 10% of his or her MIP Awards in the form of Immediate Vesting RSUs. For Messrs. Brown and Lufkin and Dr. Ajami, the remaining MIP Awards were allocated 50% to the Extended Vesting RSUs and 50% to the MIP PSUs at maximum. For Mr. Kutua and Ms. Witteman, the remaining MIP Awards were allocated 75% to the Extended Vesting RSUs and 25% to the MIP PSUs at maximum.
- (2) For Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman, the Immediate Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on October 31, 2025, and the Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on November 19, 2025, the date of the special meeting of stockholders at which our stockholders approved, among other things, the Restated Plan to increase the number of shares of common stock authorized for issuance thereunder, including for purposes of the issuance of certain awards granted to key employees of the company, including the Extended Vesting RSUs granted to certain NEOs, out of such increase.
- (3) For Mr. Lufkin, the Immediate Vesting RSUs and Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on December 11, 2025, the date our human capital management and compensation committee granted the awards to Mr. Lufkin.

The table below shows the Anti-Dilution Awards granted to our NEOs in connection with the conversion of \$3,000 in aggregate principal amount of 2030 Notes in 2025.

- (1) The Anti-Dilution Awards with respect to the Immediate Vesting RSUs and Extended Vesting RSUs for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman were deemed granted for purposes of FASB ASC Topic 718 on December 8, 2025, the exercise date for the conversion of \$3,000 in aggregate principal amount of the 2030 Notes, and for Mr. Lufkin on December 11, 2025, the date of grant of the Immediate Vesting RSUs and Extended Vesting RSUs.

Accelerated Vesting

The MIP Awards are subject to accelerated vesting upon certain events as described below under “Potential Payments Upon Termination or Change in Control.”

Updates on 2024 PSU Awards

As described in our proxy statement filed with respect to our annual meeting of stockholders held in May 2025, we granted PSUs to Mr. Brown and Mr. Kutua on March 1, 2024. Each grant represented a contingent right to receive one share of common stock with market-based and service-based vesting conditions. The market-based performance condition was based upon the company’s relative total shareholder return performance (“Relative TSR Performance”) for each performance period. The TSR comparator group includes the companies included in the S&P Food and Beverage Select Industry Index, excluding companies in the S&P 500, as of the beginning of each of the three performance periods that apply to the PSUs (each performance period began on January 1, 2024 and the performance periods end on December 31, 2024, December 31, 2025 and December 31, 2026 for a one-year, two-year and three-year performance period, respectively). The market-based performance condition allows for a range of vesting from 0% to 200% of the target amount, depending on the company’s Relative TSR Performance for the applicable performance period, as determined by the human capital management and compensation committee within 60 days following the end of the performance period. In addition to the market-based vesting condition, these PSUs are subject to the continued service of the executive officers through the last day of the applicable performance period. PSUs that are unvested three months following the end of the performance period will be forfeited and returned to the Restated Plan on that date, or such earlier date as determined by our human capital management and compensation committee.

The fair value of PSUs is measured on the grant date using a Monte Carlo simulation. Each of the three performance periods is considered an individual tranche of the award referred to below as “Tranche I,” “Tranche II” and “Tranche III,” respectively.

TRANCHE	PSUs (#)	GRANT DATE FAIR VALUE	
		PER PSU (\$)	PERFORMANCE PERIOD
Tranche I ⁽¹⁾	80,307	13.49	1/1/24 – 12/31/24
Tranche II ⁽²⁾	74,714	14.50	1/1/24 – 12/31/25
Tranche III ⁽³⁾	70,946	15.27	1/1/24 - 12/31/26

(1) Tranche I consisted of 55,597 and 24,710 target PSUs granted to Mr. Brown and Mr. Kutua, respectively.

(2) Tranche II consists of 51,725 and 22,989 target PSUs granted to Mr. Brown and Mr. Kutua, respectively.

(3) Tranche III consists of 49,116 and 21,830 target PSUs granted to Mr. Brown and Mr. Kutua, respectively.

The shares subject to each performance period (the “Target PSUs”) vest on the last day of the respective performance period in an amount equal to the applicable percentage set forth below for the Relative TSR Performance for such performance period, so long as the applicable executive remains a service provider through such date:

RELATIVE TSR PERFORMANCE ⁽¹⁾	PERCENTAGE APPLICABLE TO THE RELATIVE TSR PERFORMANCE
Less than 30 th percentile	0%
30 th percentile	50%
50 th percentile	100%
80 th percentile and above	200%

(1) Straight-line interpolation shall determine the Percentage Applicable to the Relative TSR Performance when Relative TSR Performance is between the 30th and 50th percentiles or between the 50th and 80th percentiles.

On February 4, 2025, our human capital management and compensation committee determined that the company’s Relative TSR Performance for the Tranche I PSUs was less than the 30th percentile, resulting in 0% of the Tranche I Target PSUs vesting. Accordingly, the unvested Tranche I Target PSUs were forfeited and returned to the Restated Plan share reserve for future grant.

For purposes of determining the vesting of the Tranche II Target PSUs, WTW calculated the company’s Relative TSR Performance for the Tranche II performance period based on information provided by the company and data sourced from Standard & Poor’s Capital IQ, and provided the results of such calculation in a letter to the company dated January 15, 2026 (the “WTW Letter”). WTW concluded that the company’s Relative TSR Performance for the Tranche II PSUs was less than the 30th percentile resulting in 0% of the Tranche II Target PSUs vesting. After consideration of the WTW Letter, on February 3, 2026, our human capital management and compensation committee determined that the company’s Relative TSR Performance for the Tranche II PSUs was less than the 30th percentile, resulting in 0% of the Tranche II Target PSUs vesting. Accordingly, the unvested Tranche II Target PSUs were forfeited and returned to the Restated Plan share reserve for future grant.

Other Benefits

Nominal Cash Allowance

We provide our NEOs and certain other exempt employees a nominal allowance that is intended to be used to offset the cost of a cell phone and other electronic or work from home expenses.

General Health, Welfare and Other Benefit Plans

Our NEOs are eligible to participate in a variety of employee benefit plans on the same terms as our other employees, including medical, dental and vision care plans, life and disability insurance, our tax-qualified 401(k) plan, including a company matching contribution thereunder, and, to the extent of any offering, our employee stock purchase plan. We believe these benefits are consistent with benefits provided by our peer group and help us to attract and retain high quality executives.

401(k) Plan

We maintain a defined contribution retirement plan for our eligible U.S. employees. Participants may make pre- and post-tax contributions to the plan from their eligible earnings, and we may make matching contributions and profit sharing contributions to eligible participants, in each case, up to the statutorily prescribed annual limits on contributions under the Code. We currently provide matching contributions under the 401(k) plan equal to a safe harbor match of 100% of the first 4% of employee contributions. Contributions are allocated to each participant's individual account and are then invested in selected investment alternatives according to the participant's directions. The plan is intended to be qualified under Section 401(a) of the Code, and the plan's trust is intended to be tax exempt under Section 501(a) of the Code. As a tax-qualified 401(k) plan, the pre-tax contributions to the 401(k) plan and income earned on such contributions, are not taxable to participants until withdrawn or distributed from the 401(k) plan. Post-tax contributions and income earned on such contributions are not taxed at the time of withdrawal, provided it is a qualified distribution. The table under "All Other Compensation" of the "Summary Compensation Table" provides additional information regarding 401(k) plan matching contributions made to our NEOs in 2025.

Perquisites and Other Benefits

Currently, we do not view perquisites or other personal benefits as a significant component of our executive compensation program. Accordingly, we do not provide significant perquisites or other personal benefits to our NEOs, except as generally made available to all our employees, or in situations where we believe it is appropriate to assist an individual in the performance of his or her duties, to make our executive officers more efficient and effective, for recruitment and retention purposes, or for executive protection. During 2025, none of our NEOs received perquisites or other personal benefits that were, in the aggregate, \$10,000 or more for each individual, other than Mr. Brown who received a reimbursement for legal fees, and Mr. Lufkin who received a reimbursement for commuting expenses. In the future, we may provide perquisites or other personal benefits in limited circumstances, such as those described above.

Potential Payments Upon Termination or Change in Control

Change in Control Severance Arrangements

Each of our NEOs has entered into an agreement with the company which provides for certain cash and/or equity severance benefits in the event the executive is involuntary terminated without cause or resigns for good reason in connection with a change in control. Under these change in control severance arrangements, enhanced cash severance benefits and equity benefits are only provided if there is a “double trigger” to preserve morale and productivity, and to encourage executive retention in the event of a change in control. In addition to requiring a change in control for Beyond Meat, benefits are only provided if the eligible executive is involuntarily terminated without cause or resigns for good reason.

All such benefits are subject to certain conditions which benefit Beyond Meat, including, among other things, the executive executing a general release of claims in favor of the company and complying with the terms of his or her confidentiality agreement and all company policies.

Our human capital management and compensation committee believes these incentives will help us retain our executives, and therefore maintain the stability of our business, during the potentially volatile period accompanying a change in control.

The consummation of the early settlement of the Exchange Offer on October 15, 2025 constituted a change in control under the severance arrangements with our NEOs; however, such change in control did not trigger any severance benefits to any of our NEOs in 2025 since no qualifying termination with respect to any of them has occurred.

Potential obligations under the change in control severance arrangements with our NEOs are described in the subsection titled “Potential Payments Upon Termination or Change in Control” in the “Executive Compensation” section below.

MIP Award Agreements

The MIP Awards are subject to accelerated vesting upon certain events as described below under “Potential Payments Upon Termination or Change in Control.”

Compensation Setting Process

Role of Human Capital Management and Compensation Committee

Under its charter, our human capital management and compensation committee is responsible for, among other things, determining the amount and form of compensation paid to our executive officers, including our CEO. In exercising this authority, our human capital management and compensation committee reviews and approves corporate goals and objectives relevant to executive officer and CEO compensation at least annually; evaluates executive officer and CEO performance in light of such goals and objectives, including the relationship of such compensation to corporate performance; and, based on such evaluation, determines the level of executive officer and CEO compensation, including base salary, bonus, incentive or performance-based compensation, and equity awards. Except with respect to determining our CEO's compensation, our human capital management and compensation committee may delegate its authority to a subcommittee of the human capital management and compensation committee or other members of our board of directors who satisfy the eligibility criteria required of human capital management and compensation committee members. Our human capital management and compensation committee may also delegate to one or more of our officers the authority to grant stock options and other stock awards to our non-executive employees, brand ambassadors and consultants. In December 2021, the human capital management and compensation committee delegated to Ethan Brown, our President and Chief Executive Officer, the authority to grant new hire and/or promotion RSUs within specified quantitative parameters to certain non-executive employees, without further action by the human capital management and compensation committee or board of directors.

Role of Management

Typically, our chief executive officer attends human capital management and compensation committee meetings, makes recommendations to our human capital management and compensation committee regarding compensation for the other executive officers, but is not present during discussion, deliberation and decisions regarding his own compensation. Our human capital management and compensation committee then reviews the recommendations and other data and makes decisions as to the total compensation for each executive officer, as well as the allocation of the amount of total compensation between base salary, bonus, incentive or performance-based compensation, and equity awards. No executive officer has any role in approving his or her own compensation. Our human capital management and compensation committee regularly meets in executive session, without members of the management team present, when discussing and approving executive compensation.

Role of Human Capital Management and Compensation Committee Consultant

Our human capital management and compensation committee has the sole authority to retain the services of compensation consultants, legal counsel and such other advisors as it deems necessary and advisable to assist the committee in carrying out its responsibilities. In August 2020, our human capital management and compensation committee engaged WTW, an independent compensation consulting firm, to serve as its compensation consultant and to assist it with its duties and responsibilities.

WTW has advised our human capital management and compensation committee on a variety of topics, such as our executive pay philosophy; the relevant talent market and market data sources including our peer group composition; pay program design, including STI and LTI plan design related to company priorities and strategic objectives (including the introduction of PSUs to our LTI program, the Performance Awards and the MIP Awards); regulatory developments and requirements; non-employee director compensation; and broader human capital governance matters. In addition to such services provided by WTW's advisors to our human capital management and compensation committee, during 2025 WTW provided other services to management through WTW's Health, Wealth and Career segment.

WTW uses competitive market data to provide ranges for total compensation, including base salary, incentive compensation (including the Performance Awards) and equity compensation (including the MIP Awards), that are consistent with our compensation peer group for our human capital management and compensation committee to consider. In determining the total compensation for our executive officers, our human capital management and compensation committee, with assistance from the compensation consultant, reviews the compensation practices and levels of our compensation peer group to assess whether individual total compensation is sufficiently competitive to attract and retain our executive officers. The human capital management and compensation committee regularly reviews the compensation peer group and the underlying criteria to assess that it remains appropriate for review and comparison purposes. The human capital management and compensation committee also considers general industry survey data and food and beverage industry survey data, generally from companies of a similar revenue size, to further inform executive pay decisions.

Our human capital management and compensation committee generally seeks to target total direct compensation to within the 50th to 60th percentiles of peer group companies, with total cash compensation (base salary and annual STI compensation (excluding the Performance Awards)) targeted at the 50th percentile, and long-time incentive compensation targeted at the 50th to 75th percentile (excluding the MIP Awards). Although its analysis of competitive market data provides our human capital management and compensation committee with guiding information and a broad market check, our human capital management and compensation committee does not specifically benchmark compensation for our executive officers in terms of picking a particular percentile relative to other people with similar roles at peer group companies. Instead, our human capital management and compensation committee also applies its subjective judgment in determining the total compensation for each executive officer and considers the compensation peer group data in conjunction with a number of factors, including an executive officer's individual skills and expertise, and the scope and criticality of each executive officer's role.

WTW maintains policies and protocols designed to prevent any conflicts of interest. Our human capital management and compensation committee has assessed the independence of WTW, taking into account, among other things, the factors set forth in the SEC's rules and regulations and the Nasdaq listing standards, and concluded that the engagement of WTW does not raise any conflicts of interest or similar concerns.

After considering the factors set forth in Rule 10C-1(b)(4) under the Exchange Act and Nasdaq Listing Rule 5605(d)(3)(D), including a review of WTW's representations to the human capital management and compensation committee regarding each factor, the human capital management and compensation committee determined that WTW was independent.

Peer Group Comparisons for Benchmarking NEO Compensation

2025 Peer Group

Our human capital management and compensation committee reviews compensation data from a specific group of companies that are similar to us in considering the compensation of our NEOs. Our human capital management and compensation committee uses peer group comparisons to measure the competitiveness of our compensation practices. Pay at comparable companies is just one of the factors in our human capital management and compensation committee's pay decisions, which also reflect individual skills and expertise, the scope and criticality of the NEO's role, and other factors that are deemed to be important based on our human capital management and compensation committee's business judgment.

For 2025, with respect to the NEOs, our human capital management and compensation committee had access to market data that captured a range of pay. Our human capital management and compensation committee examined the range of pay to provide for meaningful differentials in pay levels that represented differences in the criticality and performance of each role across companies, and also reflected the full range of competitive pay at our peer companies without focusing on extreme outliers.

For 2025, based upon input from management and the recommendation of WTW, our human capital management and compensation committee revised the peer group to include food and beverage and personal care product companies within a relevant size range based on revenues, market capitalization and headcount, and removed companies that have been acquired or taken private, changed business models or characteristics, or have extraordinarily low market capitalization. The human capital management and compensation committee believed this peer group revision was appropriate in light of the Company's slowing rate of growth since 2020 and competitors for executive talent. For 2025, the following companies were removed from the peer group: Benson Hill, Inc., Lifecore Biomedical, Inc. Sovos Brands, Inc, Thorne HealthTech, Inc. and United Malt Group Limited.

2025 Performance Award Peer Group

For 2025, with respect to the Performance Awards granted to our NEOs and other key employees, our board of directors, human capital management and compensation committee and transaction committee had access to market data that captured a range of similar programs implemented by a selected group of comparable companies within the previous five years. Our human capital management and compensation committee examined the comparator group information to evaluate the affordability of the program and to provide for meaningful differentials in award levels that represented differences in the criticality and performance of each individual selected for participation in the Performance Award program.

Based upon input from management and the recommendation of WTW, in determining the Performance Awards, our board of directors, human capital management and compensation committee and transaction committee reviewed information based on a peer group recommended by WTW of 19 companies of similar size that had adopted similar programs when faced with situations similar to that faced by the company in early 2025. The companies that were selected within a relevant size range based on revenues and were selected from various industries, given not enough companies in the food and beverage and personal care industry were available to provide a fulsome comparator group. The board of directors, human capital management and compensation committee and transaction committee believed this peer group was appropriate for purposes of evaluating and establishing the Performance Awards, and was used only for that purpose.

2026 Peer Group

For 2026, based upon input from management and the recommendation of WTW, our human capital management and compensation committee further revised the peer group and removed nine companies outside the size range used to determine peers and added eight new companies that meet the screening criteria. For 2026, the following companies were added to the peer group: Bridgford Foods Corporation, Farmer Bros. Co., The Honest Company, Inc., LifeVantage Corporation, Lifeway Foods, Inc., MGP Ingredients, Inc., Nature’s Sunshine Products, Inc., and Zevia PBC; and the following companies were removed from the peer group: BellRing Brands, Inc., The Boston Beer Company, Inc., Celsius Holdings, Inc., Freshpet, Inc., Lancaster Colony Corporation, Seneca Foods Corporation, The Simply Good Foods Company, Tootsie Roll Industries, Inc. and Westrock Coffee Company.

Other Important Compensation Practices

We have an insider trading policy governing the purchase, sale and other dispositions of our securities by our directors, officers and employees that we believe is reasonably designed to promote compliance with insider trading laws, rules and regulations, and the exchange listing standards applicable to us. A copy of our insider trading policy is filed as an exhibit to our 2025 Form 10-K. With regard to the company’s trading in its own securities, it is the company’s policy to comply with the federal securities laws and the applicable exchange listing requirements. In addition, the company has adopted the policies set forth in the table below which include important compensation practices the company observes.

NAME OF POLICY	CONSIDERATIONS	MATERIAL FEATURES
Anti-Hedging Policy	Hedging insulates executives from stock price movement and reduces alignment with stockholders.	Our insider trading policy prohibits our employees, including our NEOs, and our directors from engaging in the following types of hedging transactions involving our common stock: (1) selling short any Beyond Meat stock or other Beyond Meat security; (2) buying or selling puts or calls or other derivatives on Beyond Meat securities; or (3) otherwise entering into any hedging arrangements involving Beyond Meat securities.
Anti-Pledging Policy	Pledging raises potential risks to stockholder value, particularly if the pledge is significant.	Our insider trading policy also prohibits our employees, including our NEOs, and our directors from holding our common stock in a margin account or pledging it as collateral for a loan.

Policies and Practices Related to the Grant of Certain Equity Awards Close in Time to the Release of Material Nonpublic Information

We provide the following discussion of the timing of option awards in relation to the disclosure of material nonpublic information, as required by Item 402(x) of Regulation S-K under the Exchange Act. The company’s practice has been to grant annual LTI equity awards on a predetermined schedule. Generally, during the first quarter of the year, our human capital management and compensation committee reviews the value, amount and mix of equity compensation to be awarded (inclusive of RSUs, PSUs and stock options) to executive officers. Our human capital management and compensation committee then generally approves the grant of such equity awards on the first business day of the company’s open trading window after the company’s release of financial results for the prior year through the filing of a Current Report on Form 8-K and accompanying earnings release and earnings call, which may occur before the filing of the company’s Annual Report on Form 10-K for the prior year. In the event there is a delay in reviewing the value, amount and mix of such awards, the approval of the grant of such awards by our human capital management and compensation committee will be deferred until the first business day of the company’s open trading window after the company’s release of quarterly financial results through the filing of a Current Report on Form 8-K and accompanying earnings release and earnings call, which may occur before the filing of the company’s Quarterly Report on Form 10-Q for such quarter.

Our human capital management and compensation committee does not take material nonpublic information into account when determining the timing and terms of LTI equity awards. Instead, the timing of grants is generally in accordance with the yearly compensation cycle, with awards granted at the start of the new year to incentivize executive officers to deliver on the company's strategic objectives for the new year. Awards to newly-hired employees or awards made for other purposes, such as the MIP awards, special retention or incentive awards, may be granted at other times in the discretion of our human capital management and compensation committee or board of directors. The company has not timed the disclosure of material nonpublic information to affect the value of executive compensation, nor coordinated a grant and the release of information that could be expected to affect such grant's value.

The company did not grant any stock options to any of its NEOs in 2025.

Compensation Risk Assessment

Our human capital management and compensation committee, in consultation with WTW, has assessed our compensation policies and believes that our company-wide compensation policies and practices are reasonable and encourage appropriate behaviors without creating risks that are reasonably likely to have a material adverse effect on us. As part of its assessment, our human capital management and compensation committee considered, among other factors, the governance and oversight of our compensation program, balanced mix between fixed and variable compensation, the use of multiple performance measures, time matching of performance periods for pay programs, the use of metrics generally focused on final outcomes, and the use of external consultants to review and advise on our pay practices. Our human capital management and compensation committee also considered the following company compensation strategies and design features intended to mitigate the encouragement of inappropriate risk-taking:

Metric-based Pay	Variable compensation programs are tied to important metrics of performance
Payment for Outputs	Performance metrics selection and performance measurement are performed to avoid payment without confirmation of results
Goal Diversification	Emphasizing multiple performance measures allows the company to measure quality and quantity of revenue, market share growth and financial performance achievement
Payment Caps	Payment caps are advisable to discourage actions that can harm the business, temptation to take risk outside of reasonable parameters and or attempts to achieve otherwise unrealistic performance
Clawbacks	The policy provides for the company to recover the portion of any incentive-based compensation that is erroneously awarded compensation

In October 2023, our human capital management and compensation committee adopted a mandatory clawback policy in compliance with SEC rules and Nasdaq listing standards. Our clawback policy provides that the company shall recover from current or former executive officers excess incentive-based compensation (i.e., incentive compensation that is granted, earned or vested based in whole or in part on the attainment of one or more financial reporting measures) in the event the company is required to prepare an accounting restatement, unless our human capital management and compensation committee determines that recovery would be impracticable and regardless of whether the officer engaged in misconduct or otherwise caused or contributed to the requirement for the restatement or when restated financial statements are filed by the company.

As disclosed in our 2025 Form 10-K, we corrected certain errors to previously issued interim period consolidated financial statements that required a recovery analysis of incentive-based compensation received by the company's executive officers. The company determined that no recovery of incentive-based compensation was required as the correction either resulted in no changes to the performance metrics used to determine incentive-based compensation for executive officers during the last three completed fiscal years or such incentive compensation was calculated after taking such corrections into account.

In October 2024, our board of directors adopted stock ownership guidelines for outside directors to strengthen the alignment of interests between our non-employee directors and stockholders. As of December 31, 2025, each non-employee director was in compliance with the applicable stock ownership guidelines or on track to achieve compliance within the allotted five-year time frame. Although we have not yet adopted stock ownership guidelines for executive officers, due in part to challenges and other compensation-related priorities of recent years, our human capital management and compensation committee intends to establish stock ownership guidelines for executive officers at the appropriate time in the future.

Conclusion

We remain strongly committed to our pay for performance philosophy. Our human capital management and compensation committee gives careful consideration to each core element of direct compensation for each NEO. The human capital management and compensation committee believes our NEO compensation program is effective in advancing our goals, reasonable in light of the programs of our peers, and responsible in encouraging our NEOs to strive for crucial innovation, business growth and outstanding stockholder returns, without promoting unnecessary or excessive risks.

COMPENSATION COMMITTEE REPORT

The human capital management and compensation committee has reviewed and discussed the Compensation Discussion and Analysis contained in this proxy statement with management. Based on the human capital management and compensation committee's review of, and the discussions with management with respect to, the Compensation Discussion and Analysis, our human capital management and compensation committee recommended to our board of directors that the Compensation Discussion and Analysis be included in this proxy statement and in our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the SEC.

Respectfully submitted by the members of the human capital management and compensation committee of the board of directors:

Colleen Jay (Chair)

- (1) Represents base salaries earned by each of the NEOs for the year indicated, prorated based on salary changes during the year.
- (2) Amounts reported in this column represent for each NEO an allowance that is intended to offset the cost of a cell phone and other electronic or work from home expenses.
- (3) For 2025, the dollar amounts reported in this column represent the aggregate grant date fair value for financial statement reporting purposes of the Immediate Vesting RSUs and Extended Vesting RSUs and associated Anti-Dilution Awards granted in 2025 to each of our NEOs as part of the MIP Awards, as calculated in accordance with FASB ASC Topic 718.

As of December 31, 2025, none of the MIP PSUs were deemed granted for purposes of FASB ASC Topic 718 pending establishment of the applicable performance metrics. SEC rules require a presentation that is consistent with FASB ASC Topic 718. As a result, the aggregate grant date fair value of the equity awards shown in the table above excludes the MIP PSUs and Anti-Dilution Awards with respect to the MIP PSUs, which amounts will be reported in our Summary Compensation Table for 2026 and 2027 following the establishment of the grant date fair value of such awards.

For Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman, the Immediate Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on October 31, 2025, and the Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on November 19, 2025, the date of the special meeting of stockholders at which our stockholders approved, among other things, the Restated Plan to increase the number of shares of common stock authorized for issuance thereunder, including for purposes of the issuance of certain awards granted to key employees of the company, including the Extended Vesting RSUs granted to certain NEOs, out of such increase. The aggregate grant date fair value of the Immediate Vesting RSUs and Extended Vesting RSUs included in the table above for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman is based on the company's closing stock price of \$1.655 on October 31, 2025 and \$0.9757 on November 19, 2025, respectively. For Mr. Lufkin, the Immediate Vesting RSUs and Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on December 11, 2025, the date our human capital management and compensation committee granted the awards to Mr. Lufkin. The aggregate grant date fair value of the Immediate Vesting RSUs and Extended Vesting RSUs included in the table above for Mr. Lufkin is based on the company's closing stock price of \$1.18 on December 11, 2025.

The Anti-Dilution Awards with respect to the Immediate Vesting RSUs and Extended Vesting RSUs for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman were deemed granted for purposes of FASB ASC Topic 718 on December 8, 2025, the exercise date for the conversion of \$3,000 in aggregate principal amount of the 2030 Notes, and for Mr. Lufkin on December 11, 2025, the date of grant of the Immediate Vesting RSUs and Extended Vesting RSUs. The aggregate grant date fair value of the Anti-Dilution Awards with respect to the Immediate Vesting RSUs and Extended Vesting RSUs included in the table above for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman is based on the company's closing stock price of \$1.14 on December 8, 2025, and for Mr. Lufkin is based on the company's closing stock price of \$1.18 on December 11, 2025.

For 2024, the dollar amounts reported in this column represent the aggregate grant date fair value for financial statement reporting purposes of the RSU and PSU awards (at target performance) granted to each of Mr. Brown and Mr. Kutua for 2024, the RSU awards granted to each of Dr. Ajami and Ms. Witteman for 2024, and the RSU awards granted to each of the NEOs, other than Mr. Lufkin, for 2023, as calculated in accordance with FASB ASC Topic 718.

The grant date fair value of each RSU award is measured based on the closing price of our common stock on the date of grant excluding the impact of estimated forfeitures.

The market-based performance condition used for the 2024 PSU awards was based upon the company's Relative TSR Performance, which is considered to be a market condition under FASB ASC Topic 718, for each performance period. Consistent with FASB ASC Topic 718, the full grant date fair value (at target performance) for the market-related TSR component for all three tranches of the 2024 PSU awards is included in the amounts shown. As required by SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. The fair value of the PSUs was measured on the grant date using a Monte Carlo simulation. The following valuation assumptions were used in the Monte Carlo simulation for the PSUs granted on March 1, 2024:

ASSUMPTION	AS OF MARCH 1, 2024
Expected term (years)	2.8
Expected volatility	78.7%
Average correlation	21.4%
Risk-free interest rate	4.36%
Dividend yield	0.0%
Measurement date stock price	\$9.77

Expected Term: The expected term is based on the grant date of the PSU awards (3/1/2024) through the end of the performance period (12/31/2026).

Expected Volatility and Correlation Assumptions: Volatility and correlation measures were based on three years of daily historical stock price data through March 1, 2024.

Starting TSR: Starting TSR was calculated for the company and each of the companies in the TSR comparator group based on the closing price on the date of grant compared to the closing price on the trading day immediately preceding the beginning of each of the performance periods.

Risk-Free Interest Rate: The risk-free interest rate is based on the U.S. Treasury constant maturities yields on the grant date as reported in the H.15 Federal Reserve Statistical Release with a term corresponding to the remaining length of the performance period.

Dividend Yield Assumption: For purposes of calculating TSR, which is inclusive of dividend payments, the dividend yield assumption is zero (i.e., stock prices include amounts that would otherwise have been paid as dividends). For purposes of discounting projected payouts to determine the fair value, the dividend yield assumption is also zero because the company is a non-dividend paying company.

The amounts set forth in this column do not represent the actual economic value that may be realized by the NEOs upon the vesting of the awards or the sale of the common stock underlying such awards. There can be no assurance that these reported amounts will

ever be realized. For additional information on these awards, please see “Grants of Plan-Based Awards in 2025” and “Outstanding Equity Awards at 2025 Fiscal Year-End.”

- (4) There were no stock options granted to our NEOs in 2025. The dollar amounts reported in this column represent the aggregate grant date fair value for financial statement reporting purposes of stock options granted in 2024 and 2023, as calculated in accordance with FASB ASC Topic 718. These amounts do not represent the actual economic value that may be realized by the NEOs upon the exercise of the awards or the sale of the common stock underlying such awards. There can be no assurance that these reported amounts will ever be realized. The valuation assumptions we used in calculating the fair value of these stock option awards are set forth in Note 11 to our consolidated financial statements included in our 2025 Form 10-K. As required by SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. For additional information on these awards, please see “Outstanding Equity Awards at 2025 Fiscal Year-End.”
- (5) Amounts reported in this column for 2025 represent: (a) performance bonuses approved and paid in 2026 in recognition of performance in 2025 under our Bonus Plan based on achievement of certain corporate performance goals and objectives including net revenues, gross margin and operating expenses; and (b) Performance Awards under our Bonus Plan paid to our NEOs, subject to continued employment, repayment and certain other obligations, as described above under “Compensation Discussion and Analysis—2025 NEO Compensation Details—Executive Incentive Bonus Plan—Key Employee Performance Awards.” Amounts reported in this column for 2023 represent performance bonuses approved and paid in 2024 in recognition of performance in 2023 under our Bonus Plan based on achievement of certain corporate performance goals and objectives including net revenues, gross margin, free cash flow and operating expenses. None of the NEOs received a performance bonus under our Bonus Plan in 2024.
- (6) The table set forth below under “All Other Compensation” provides additional information regarding these amounts for 2025.
- (7) Mr. Lufkin was not an NEO in 2023 and 2024 and, as a result, no disclosure is made for such years in accordance with SEC rules.

- (1) As of December 31, 2025, none of the MIP PSUs were deemed granted for purposes of FASB ASC Topic 718 pending establishment of the applicable performance metrics. SEC rules require a presentation that is consistent with FASB ASC Topic 718. As a result, the MIP PSUs and Anti-Dilution Awards with respect to the MIP PSUs are excluded from the table above.
- (2) For Messrs. Brown, Kutua and Lufkin, Dr. Ajami and Ms. Witteman, our board of directors approved the MIP Awards on September 28, 2025, with such grants effective on September 29, 2025; however, the Immediate Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on October 31, 2025, and the Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on November 19, 2025, the date of the special meeting of stockholders at which our stockholders approved, among other things, the Restated Plan to increase the number of shares of common stock authorized for issuance thereunder, including for purposes of the issuance of certain awards granted to key employees of the company, including the Extended Vesting RSUs granted to certain NEOs, out of such increase. For Mr. Lufkin, the Immediate Vesting RSUs and Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on December 11, 2025, the date our human capital management and compensation committee granted the awards to Mr. Lufkin. The Anti-Dilution Awards with respect to the Immediate Vesting RSUs and Extended Vesting RSUs for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman were deemed granted for purposes of FASB ASC Topic 718 on December 8, 2025, the exercise date for the conversion of \$3,000 in aggregate principal amount of the 2030 Notes, and for Mr. Lufkin on December 11, 2025, the date of grant of the Immediate Vesting RSUs and Extended Vesting RSUs.
- (3) Represent Performance Awards under our Bonus Plan paid to our NEOs, subject to continued employment, repayment and certain other obligations, as described above under “Compensation Discussion and Analysis—2025 NEO Compensation Details—Executive Incentive Bonus Plan—Key Employee Performance Awards.” STI cash incentives reflect threshold, target and maximum bonus amounts for 2025 performance under our Bonus Plan, as described in “2025 NEO Compensation Details—Executive Incentive Bonus Plan—STI Cash Incentives.” With respect to the STI cash incentives, threshold bonus amounts assume achievement of the performance goals at 50% of target, target bonus amounts assume achievement of the performance goals at 100% of target and maximum bonus amounts assume achievement of the performance goals at 200% of target.
- (4) The Immediate Vesting RSUs and Extended Vesting RSUs were granted pursuant to MIP Awards and are subject to future Anti-Dilution Awards which are not reflected in the table above. All Immediate Vesting RSUs and associated Anti-Dilution Awards granted in 2025 vested as of December 31, 2025. All Extended Vesting RSUs and associated Anti-Dilution Awards granted in 2025 will vest 50% on December 31, 2026, with the remainder vesting in four equal quarterly installments thereafter, in each case subject to continued service as of the vesting date.

- (5) The dollar amounts reported in this column represent the aggregate grant date fair value for financial statement reporting purposes of the Immediate Vesting RSUs and Extended Vesting RSUs and associated Anti-Dilution Awards granted in 2025 to each of our NEOs as part of the MIP Awards, as calculated in accordance with FASB ASC Topic 718. For Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman, the Immediate Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on October 31, 2025, and the Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on November 19, 2025, the date of the special meeting of stockholders at which our stockholders approved, among other things, the Restated Plan to increase the number of shares of common stock authorized for issuance thereunder, including for purposes of the issuance of certain awards granted to key employees of the company, including the Extended Vesting RSUs granted to certain NEOs, out of such increase. The aggregate grant date fair value of the Immediate Vesting RSUs and Extended Vesting RSUs included in the table above for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman is based on the company's closing stock price of \$1.655 on October 31, 2025 and \$0.9757 on November 19, 2025, respectively. For Mr. Lufkin, the Immediate Vesting RSUs and Extended Vesting RSUs were deemed granted for purposes of FASB ASC Topic 718 on December 11, 2025, the date our human capital management and compensation committee granted the awards to Mr. Lufkin. The aggregate grant date fair value of the Immediate Vesting RSUs and Extended Vesting RSUs included in the table above for Mr. Lufkin is based on the company's closing stock price of \$1.18 on December 11, 2025. The Anti-Dilution Awards with respect to the Immediate Vesting RSUs and Extended Vesting RSUs for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman were deemed granted for purposes of FASB ASC Topic 718 on December 8, 2025, the exercise date for the conversion of \$3,000 in aggregate principal amount of the 2030 Notes, and for Mr. Lufkin on December 11, 2025, the date of grant of the Immediate Vesting RSUs and Extended Vesting RSUs. The aggregate grant date fair value of the Anti-Dilution Awards with respect to the Immediate Vesting RSUs and Extended Vesting RSUs included in the table above for Messrs. Brown and Kutua, Dr. Ajami and Ms. Witteman is based on the company's closing stock price of \$1.14 on December 8, 2025, and for Mr. Lufkin is based on the company's closing stock price of \$1.18 on December 11, 2025. The amounts set forth in this column do not represent the actual economic value that may be realized by the NEOs upon the vesting of the awards or the sale of the common stock underlying such awards. There can be no assurance that these reported amounts will ever be realized. The grant date fair value of each RSU award is measured based on the closing price of our common stock on the date of grant excluding the impact of estimated forfeitures.

- (1) Equity awards granted prior to April 30, 2019 were granted under our 2011 Equity Incentive Plan, equity awards granted on or after April 30, 2019 were granted under our 2018 Equity Incentive Plan, and equity awards granted on or after September 28, 2025 were granted under our Restated Plan. Our 2011 Equity Incentive Plan was amended and restated as our 2018 Equity Incentive Plan, which became effective on April 30, 2019, the day immediately prior to the date on which our registration statement in connection with our IPO was declared effective by the SEC. The terms of our 2011 Equity Incentive Plan continue to govern the terms and conditions of the outstanding awards previously granted thereunder. Our 2018 Equity Incentive Plan was amended and restated as our Restated Plan, which became effective as of September 28, 2025. All vesting is generally subject to the individual's continuous service with us through the vesting dates and the potential vesting acceleration, including pursuant to the terms of the agreements governing the MIP Awards, described below under "Potential Payments Upon Termination or Change in Control."

- (2) Option exercise price for awards granted prior to April 30, 2019 under our 2011 Equity Incentive Plan represents the fair market value of a share of our common stock as determined by our board of directors in accordance with Section 409A of the Code or, in the case of incentive stock options, in compliance with Section 422 of the Code. Option exercise price for awards granted on May 1, 2019 is \$25.00 per share, which was equal to the initial public offering price of our common stock in the IPO. Option exercise price for awards granted after May 1, 2019 is based on the closing price of our common stock on the Nasdaq Global Select Market on the date of grant.
- (3) The market value of unvested stock awards is calculated by multiplying the number of unvested units held by the applicable NEO by the closing price of our common stock on December 31, 2025, the last trading day of the year, which was \$0.82.
- (4) The market value of unvested PSU awards is calculated by multiplying the number of unvested units (at threshold performance) held by the applicable NEO by the closing price of our common stock on December 31, 2025, the last trading day of the year, which was \$0.82.
- (5) One-fourth of the shares subject to this stock option vested on July 20, 2017 and the remainder of the grant vested in thirty-six equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (6) One-fourth of the shares subject to this stock option vested on August 3, 2018 and the remainder of the grant vested in thirty-six equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (7) One-fourth of the shares subject to this stock option vested on May 1, 2020 and the remainder of the grant vested in thirty-six equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (8) One-forty-eighth of the shares subject to this stock option vested on April 2, 2020 and the remainder of the grant vested in forty-seven equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (9) One-forty-eighth of the shares subject to this stock option vested on April 12, 2021 and the remainder of the grant vested in forty-seven equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (10) One-fourth of the shares subject to this stock option vested on February 28, 2023 and the remainder of the grant vested or will vest in thirty-six equal monthly installments thereafter.
- (11) One-fourth of the shares subject to this stock option vested on February 28, 2024 and the remainder of the grant vested or will vest in thirty-six equal monthly installments thereafter.
- (12) One-fourth of the shares subject to this RSU grant vested on February 28, 2023 and the remainder of the grant vested or will vest in twelve equal quarterly installments thereafter.
- (13) One-fourth of the shares subject to this RSU grant vested on February 28, 2024 and the remainder of the grant vested or will vest in twelve equal quarterly installments thereafter.
- (14) One-fourth of the shares subject to this RSU grant vested on March 1, 2025 and the remainder of the grant will vest in twelve equal quarterly installments thereafter.
- (15) The Extended Vesting RSUs were granted pursuant to MIP Awards and are subject to future Anti-Dilution Awards which are not reflected in the table above. All extended vesting RSU awards and associated Anti-Dilution Awards will vest 50% on December 31, 2026, with the remainder vesting in four equal quarterly installments thereafter, in each case subject to continued service as of the vesting date.

- (16) Represents Anti-Dilution Awards associated with Extended Vesting RSUs granted in 2025 pursuant to the MIP Awards. All extended vesting RSU awards and associated Anti-Dilution Awards will vest 50% on December 31, 2026, with the remainder vesting in four equal quarterly installments thereafter, in each case subject to continued service as of the vesting date.
- (17) Each PSU granted to Mr. Brown on March 1, 2024 represents a contingent right to receive one share of common stock with market-based and service-based vesting conditions. The PSU awards comprise three tranches, with vesting based on the company's Relative TSR Performance for each performance period (each performance period begins on January 1, 2024, and the performance periods end on December 31, 2024, December 31, 2025 and December 31, 2026 for a one-year, two-year and three-year performance period, respectively), with vesting at target equal to 50% of the total units subject to the PSU award, subject to continued service through the applicable vesting date and subject to acceleration in the event of certain terminations of employment in connection with a change in control of our company. The target amount of 55,597 shares subject to Tranche I was forfeited on February 4, 2025 as the performance conditions for vesting were not met. The target amount of 51,725 shares subject to Tranche II was forfeited on February 3, 2026 as the performance conditions for vesting were not met. The number of PSUs listed in this row represents the threshold outcome of the performance conditions for Tranche II and Tranche III, as performance was tracking below threshold achievement as of December 31, 2025.
- (18) The MIP PSUs were granted pursuant to the MIP Awards and represent a contingent right to receive one share of common stock with performance-based and service-based vesting conditions. The MIP PSUs will be earned based on the achievement of annual performance goals measured over two annual performance periods (2026 and 2027), with performance goals to be set based on metrics to be established at the beginning of each year by our board of directors upon recommendation from our human capital management and compensation committee. MIP PSU recipients will be eligible to vest in an amount ranging from 50% to 150% of the "target" MIP PSUs based on performance; there will be no payout for performance below the threshold level. MIP PSU recipients will have the opportunity to "catch up" and earn any MIP PSUs not earned during the first performance period based on overachievement relative to the performance goals established for 2027 by our board of directors upon recommendation from the human capital management and compensation committee. The vesting of the MIP PSUs is subject to continued service through the applicable vesting date and subject to acceleration in the event of certain terminations of employment or in connection with a change in control of our company. The number of PSUs listed in this row represents the threshold outcome of the performance conditions for the MIP PSUs.
- (19) Represents Anti-Dilution Awards associated with MIP PSUs granted in 2025 pursuant to the MIP Awards. All MIP PSUs and associated Anti-Dilution Awards will vest as described in footnote (18).
- (20) One-fourth of the shares subject to this stock option vested on January 7, 2020 and the remainder of the grant vested in thirty-six equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (21) One-forty-eighth of the shares subject to this stock option vested on April 2, 2020 and the remainder of the grant vested in forty-seven equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (22) One-forty-eighth of the shares subject to this stock option vested on April 12, 2021 and the remainder of the grant vested in forty-seven equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (23) One-forty-eighth of the shares subject to this stock option vested on August 9, 2021 and the remainder of the grant vested in forty-seven equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (24) One-fourth of the shares subject to this stock option vested on February 28, 2023 and the remainder of the grant vested in thirty-six equal monthly installments thereafter.

- (25) One-fourth of the shares subject to this stock option vested on October 13, 2023 and the remainder of the grant vested or will vest in thirty-six equal monthly installments thereafter.
- (26) One-fourth of the shares subject to this stock option vested on February 28, 2024 and the remainder of the grant vested or will vest in thirty-six equal monthly installments thereafter.
- (27) One-fourth of the shares subject to this RSU grant vested on February 28, 2023 and the remainder of the grant vested or will vest in twelve equal quarterly installments thereafter.
- (28) One-fourth of the shares subject to this RSU grant vested on October 13, 2023 and the remainder of the grant vested or will vest in twelve equal quarterly installments thereafter.
- (29) One-fourth of the shares subject to this RSU grant vested on February 28, 2024 and the remainder of the grant vested or will vest in twelve equal quarterly installments thereafter.
- (30) One-fourth of the shares subject to this RSU grant vested on March 1, 2025 and the remainder of the grant will vest in twelve equal quarterly installments thereafter.
- (31) The Extended Vesting RSUs were granted pursuant to MIP Awards and are subject to future Anti-Dilution Awards which are not reflected in the table above. All extended vesting RSU awards and associated Anti-Dilution Awards granted in 2025 will vest 50% on December 31, 2026, with the remainder vesting in four equal quarterly installments thereafter, in each case subject to continued service as of the vesting date.
- (32) Represents Anti-Dilution Awards associated with Extended Vesting RSUs granted in 2025 pursuant to the MIP Awards. All extended vesting RSU awards and associated Anti-Dilution Awards granted in 2025 will vest 50% on December 31, 2026, with the remainder vesting in four equal quarterly installments thereafter, in each case subject to continued service as of the vesting date.
- (33) Each PSU granted to Mr. Kutua on March 1, 2024 represents a contingent right to receive one share of common stock with market-based and service-based vesting conditions. The PSU awards comprise three tranches, with vesting based on the company's Relative TSR Performance for each performance period (each performance period begins on January 1, 2024, and the performance periods end on December 31, 2024, December 31, 2025 and December 31, 2026 for a one-year, two-year and three-year performance period, respectively), with vesting at target equal to 50% of the total units subject to the PSU award, subject to continued service through the applicable vesting date and subject to acceleration in the event of certain terminations of employment in connection with a change in control of our company. The target amount of 24,710 shares subject to Tranche I was forfeited on February 4, 2025 as the performance conditions for vesting were not met. The target amount of 22,989 shares subject to Tranche II was forfeited on February 3, 2026 as the performance conditions for vesting were not met. The number of PSUs listed in this row represents the threshold outcome of the performance conditions for Tranche II and Tranche III, as performance was tracking below threshold achievement as of December 31, 2025.
- (34) One-fourth of the shares subject to this stock option vested on July 16, 2019 and the remainder of the grant vested in thirty-six equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (35) One-fourth of the shares subject to this stock option vested on July 16, 2019 and the remainder of the grant vested in thirty-six equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (36) One-fourth of the shares subject to this stock option vested on May 1, 2020 and the remainder of the grant vested in thirty-six equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.

- (37) One-forty-eighth of the shares subject to this stock option vested on April 2, 2020 and the remainder of the grant vested in forty-seven equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (38) One-forty-eighth of the shares subject to this stock option vested on April 12, 2021 and the remainder of the grant vested in forty-seven equal monthly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (39) One-fourth of the shares subject to this stock option vested on June 13, 2022 and the remainder of the grant vested in three equal half-yearly installments thereafter. This stock option was fully vested as of December 31, 2025.
- (40) One-fourth of the shares subject to this stock option vested on February 28, 2023 and the remainder of the grant vested or will vest in thirty-six equal monthly installments thereafter.

Option Exercises and Stock Vested in 2025

The following table provides information regarding the stock option exercises and stock vested for each NEO during the year ended December 31, 2025:

NAME	OPTION AWARDS		STOCK AWARDS	
	NUMBER OF SHARES ACQUIRED ON EXERCISE (#)	VALUE REALIZED ON EXERCISE (\$)	NUMBER OF SHARES ACQUIRED ON VESTING (#)	VALUE REALIZED ON VESTING (\$) ⁽¹⁾
Ethan Brown	—	—	4,575,507	4,545,762
Lubi Kutua	—	—	879,179	948,982
Dariusz Ajami, PhD	—	—	606,516	659,834
Teri L. Witteman	—	—	588,814	613,757
Drew Lufkin	—	—	113,122	147,462

(1) The value realized upon vesting of RSUs is calculated by multiplying the number of shares vested by the closing price of our common stock on the settlement date.

Executive Employment Arrangements

Each of our NEOs is an at-will employee. We have entered into an employment agreement with Mr. Brown, and an offer letter with each of our other NEOs (other than Dr. Ajami who does not have an employment agreement or offer letter with the company). These agreements establish the NEO's base salary, eligibility to participate in an incentive bonus plan and equity incentive plan, and standard employee benefits. In addition, pursuant to Mr. Brown's employment agreement, he is entitled to certain benefits upon a change in control and a qualifying termination of employment in connection with a change in control. Each of the other NEOs is entitled to change in control severance benefits pursuant to the company's executive change in control severance agreement. In addition, the MIP Awards are subject to accelerated vesting upon certain events. For additional information on the benefits to which our NEOs are entitled, please see "Potential Payments Upon Termination or Change in Control."

We and AP Services, LLC ("APS"), an affiliate of AlixPartners, have entered into an engagement letter dated August 6, 2025 (the "Engagement Letter") pursuant to which APS will provide for Mr. Boken to serve as our interim Chief Transformation Officer, certain complementary services in support of his responsibilities under the Engagement Letter (the "Core Team Services") and additional staffing that may be required. Under the Engagement Letter, we will pay a monthly fee of \$215,000 for Mr. Boken's services, a flat weekly rate of \$135,000 for 2.5 full time equivalent professionals for the Core Team Services, in addition to reasonable out-of-pocket expenses.

Potential Payments Upon Termination or Change in Control

Each of our NEOs are entitled to certain payments and vesting acceleration in the event such NEOs experience a qualifying termination or in the event of a change in control, as described below. Mr. Brown is entitled to such payments and vesting acceleration pursuant to his employment agreement, while each of our other NEOs is entitled to such payments and vesting acceleration pursuant to an executive change in control severance agreement. In addition, the agreements governing the MIP Awards provide for accelerated vesting in certain circumstances, as described below. Other than in the case of death, all such benefits are subject to, among other things, the NEO's execution of a release of claims in favor of the company and continued compliance with a confidentiality agreement and all company policies.

Termination Without Cause or Resignation for Good Reason in Connection with a Change in Control

Change in Control Severance Arrangements

Under Mr. Brown's employment agreement and the change in control severance arrangements with our NEOs, in the event that an NEO's employment is terminated by the company without "cause" or the NEO resigns for "good reason," within the period beginning 3 months prior to and ending 18 months following a "change in control" of the company (as such terms are defined in the change in control severance agreement (or employment agreement in the case of Mr. Brown) (the "Severance Plan and CIC Period"), the executive will be entitled to the following severance benefits:

- 12 months (18 months for Mr. Brown) of base salary as in effect immediately prior to the termination date, payable in a lump sum within 30 days following the release effective date;
- 12 months (18 months for Mr. Brown) of COBRA continuation coverage for the NEO and the NEO's eligible dependents, payable in a lump sum within 30 days following the release effective date, subject to all applicable taxes and withholding for required deductions, and regardless of whether the executive elects COBRA continuation coverage; and
- if the successor to the company agrees to assume any then-outstanding equity awards, 100% immediate vesting acceleration of all of the shares of our common stock underlying any then-outstanding unvested stock options and other unvested equity awards that are subject to time-based vesting (other than the MIP Awards which are subject to the terms of the MIP Award Agreements described below).

If the successor to the company does not agree to assume, substitute or otherwise continue any then outstanding equity awards (other than the MIP Awards which are subject to the terms of the MIP Award Agreements described below) at the time of a change in control, then 100% of the then-unvested shares subject to equity awards (both time-based and performance-based) shall fully vest and, if applicable, become exercisable, as of immediately prior to, and contingent upon, the consummation of such change in control, regardless of whether employment with the company (or any parent, subsidiary or successor of the company) continues or terminates unless such termination is due to resignation without good reason or by the company for cause.

The consummation of the early settlement of the Exchange Offer on October 15, 2025 constituted a change in control under the change in control severance arrangements with each of our NEOs. Accordingly, if an NEO is terminated by the company without “cause” or the NEO resigns for “good reason” within 18 months following October 15, 2025, the executive will be entitled to the foregoing severance benefits.

MIP Award Agreements

Under the MIP RSU Award Agreements, in the event that an NEO’s employment is terminated by the company without “cause” or the NEO resigns for “good reason,” within the period beginning 3 months prior to and ending 24 months following a “change in control” of the company (as such terms are defined in the MIP Award Agreements) (the “MIP Awards CIC Period”), 100% of the then-unvested shares subject to the MIP RSU Awards shall fully vest on the latest of the effective date of the NEO’s release or the date of the change in control. If any successor to the company or any affiliate of such successor does not agree to assume, substitute or otherwise continue any then-outstanding MIP RSU Awards at the time of a change in control, then 100% of the then-unvested shares subject to the MIP RSU Awards shall fully vest as of immediately prior to, and contingent upon, the consummation of such change in control.

Upon a change in control, the MIP PSUs will be deemed earned at “target” for any performance period that is incomplete or has not yet commenced, which MIP PSUs will vest in equal installments on the last day of any such remaining incomplete or remaining performance period(s), subject to continued service through the last day of the applicable incomplete or remaining performance period(s). Any earned MIP PSUs for any completed performance period that have not yet vested as of the date of the change in control will vest upon the change in control based on actual performance, subject to the individual’s continued service through the date of the change in control.

In the event that an NEO's employment is terminated by the company without "cause" or the NEO resigns for "good reason," or in the event that an NEO's employment is terminated due to death or disability, in each case, within the MIP Awards CIC Period, any earned MIP PSUs (determined as described in the preceding paragraph) will vest upon the later of the date of termination or the date of the change in control. If any successor to the company or any affiliate of such successor does not agree to assume, substitute or otherwise continue any then-outstanding MIP PSU Awards at the time of a change in control, then any earned MIP PSUs (determined as described in the preceding paragraphs) shall fully vest as of immediately prior to, and contingent upon, the consummation of such change in control.

Termination Without Cause or Resignation for Good Reason Not in Connection with a Change in Control

Change in Control Severance Arrangements

The severance benefits described above are provided under the change in control severance arrangements with our NEOs only if the NEO is terminated without cause or resigns for good reason in connection with a change in control.

MIP Award Agreements

Under the MIP RSU Award Agreements, in the event that an NEO's employment is terminated by the company without cause or the NEO resigns for good reason, and not during the MIP Awards CIC Period, then the NEO shall vest in a prorated portion of the then-unvested MIP RSUs that are scheduled to vest on the next regularly-scheduled vesting date following the NEO's termination, determined by multiplying (i) the number of MIP RSUs scheduled to vest on the next vesting date, by (ii) the percentage determined by dividing (a) the number of days elapsed from the vesting date immediately prior to the NEO's termination (or the date of grant if there is no prior vesting date) through the date of termination, by (2) the number of days in the period from the prior vesting date (or the date of grant if there was no prior vesting date) through the next vesting date, which vesting will occur on the effective date of the NEO's release.

Under the MIP PSU Award Agreements, in the event that an NEO's employment is terminated by the company without cause or the NEO resigns for good reason, and not during a MIP Awards CIC Period, the NEO shall remain eligible to vest in the tranche of the PSUs next scheduled to vest based on actual performance (and will vest in any PSUs for any completed performance period based on actual performance).

Change in Control Without Termination

Change in Control Severance Arrangements

The severance benefits described above are provided under the change in control severance arrangements with our NEOs only if the NEO is terminated without cause or resigns for good reason in connection with a change in control.

MIP Award Agreements

Under the MIP Award Agreements, the accelerated vesting described above is only provided if the NEO is terminated without cause or resigns for good reason. The only accelerated vesting of the MIP Awards upon the occurrence of a change in control without a termination of employment would occur if any successor to the company or any affiliate of such successor does not agree to assume, substitute or otherwise continue any then-outstanding MIP Awards at the time of a change in control, as described above, or, to the extent a change in control occurs following the completion of a performance period under the MIP PSUs but prior to the applicable certification date, in which case the actual earned MIP PSUs for the completed performance period will vest on the date of the change in control.

Termination Upon Death or Disability

Change in Control Severance Arrangements

In the event of the NEO's death or "disability" (as such term is defined in the change in control severance arrangements), except for compensation or benefits due to the NEO under any company-provided plans, policies and arrangements, or as otherwise required by law, the NEO will not be entitled to receive the severance benefits described above under the change in control severance arrangements.

MIP Award Agreements

Under the MIP RSU Award Agreements, in the event of the NEO's death or "disability" (as such term is defined in the MIP Award Agreements), 100% of the then-unvested shares subject to the MIP RSU Awards shall fully vest on the date of death or the effective date of the NEO's release in the case of disability.

Under the MIP PSU Award Agreements, upon the occurrence of the NEO's death or disability, the NEO shall vest in the following: (i) for any performance period that is in-process or has not yet commenced as of the date of termination, a number of PSUs equal to 50% of the target number of PSUs (as adjusted pursuant to any Anti-Dilution Award prior to such date), plus (ii) for any performance period that has ended prior to the date of the death or disability, the vesting eligible PSUs for such completed performance period.

In the event that an NEO's employment is terminated due to death or disability within the period beginning 3 months prior to and ending 24 months following a "change in control" of the company, any earned MIP PSUs (determined as described in the preceding paragraphs upon the occurrence of the change in control) will vest upon the later of the date of termination or the date of the change in control.

Termination for Cause Under MIP Award Agreements

Under the MIP Award Agreements, if the NEO is terminated for cause or in the event of the NEO's violation of any non-competition or non-solicitation covenant or a material violation of the confidentiality agreement signed by the recipient in connection with his or her employment or any other similar agreement between the recipient and the company, in each case which violation, to the extent curable, remains uncured for a period of no less than 30 days following written notice to the NEO by the company of such violation, then, to the extent permitted by applicable law, all of the unvested MIP Awards will be forfeited.

Obligations under Key Employee Performance Award Agreements

The Performance Awards were made pursuant to a Performance Award Agreement entered into with each participant. Pursuant to the Performance Award Agreement, the Performance Award was paid upon execution of definitive documentation relating to a Transaction and will be earned over a 12-month period (24-months in the case of Mr. Brown), subject to continued employment through the applicable period. The Performance Awards are subject to certain repayment obligations on an after-tax basis if the recipient resigns for any reason (other than for "good reason" in the case of Mr. Brown) or is terminated for "cause" (as defined in the Performance Award Agreement) during such period. Additionally, if the recipient is terminated by the company without cause, or the participant's employment is terminated due to death or "disability" (as defined in the Performance Award Agreement), in each case during such period, subject to execution and non-revocation of a general release of claims in favor of the company, there is no repayment obligation. In addition, the Performance Award Agreement with Mr. Brown included additional restrictions on the sale, transfer or other disposition of shares of our common stock until December 31, 2025.

Estimated Termination and Change in Control Payments

The table below provides information regarding the estimated value that may be realized by each of the NEOs in the event of the following:

- Termination without cause or resignation for good reason in connection with a change in control;
- Termination without cause or resignation for good reason not in connection with a change in control;
- Change in control where any equity awards are not assumed or substituted;
- Death; or
- Disability.

The table does not include any information regarding the benefits available generally to salaried employees, such as distributions under our 401(k) plan. The NEOs are not entitled to receive cash payments or benefits upon a termination of employment due to death or disability that are not available generally to salaried employees.

The amounts shown below assume that the applicable termination event occurred on December 31, 2025. The amounts with respect to the unvested options, RSUs and PSUs are based on the closing price of our common stock on December 31, 2025, the last trading day of the year, which was \$0.82.

(1) Each change in control severance agreement contains a “better after-tax” provision, which provides that if any of the payments to the executive constitutes a parachute payment under Section 280G of the Code, the payments will either be (i) reduced or (ii) provided in full to the executive, whichever results in the executive receiving the greater amount after taking into consideration the payment of all taxes, including the excise tax under Section 4999 of the Code. The amounts set forth in this table do not reflect the application of the “better after-tax” provision.

- (2) Each change in control severance agreement (or employment agreement in the case of Mr. Brown) provides that if, within the Severance Plan CIC Period, the company (or any parent, subsidiary or successor of the company) terminates such executive's employment without cause or such officer resigns for good reason (as such terms are defined in the applicable agreement), such executive will be entitled to receive (i) a lump-sum cash payment equal to eighteen months of his then-current base salary in the case of Mr. Brown and twelve months of their then-current base salary in the case of Dr. Ajami, Messrs. Kutua and Lufkin, and Ms. Witteman, (ii) a lump-sum cash payment equal to the COBRA premiums that would be due for COBRA coverage (assuming such coverage is elected) for a period of eighteen months in the case of Mr. Brown and twelve months in the case of Dr. Ajami, Messrs. Kutua and Lufkin, and Ms. Witteman, and (iii) if the successor to the company agrees to assume any then-outstanding equity awards, 100% immediate vesting acceleration of all of the shares of our common stock underlying any then-outstanding unvested stock options and other unvested equity awards that are subject to time-based vesting (other than the MIP Awards which are subject to the terms of the MIP Award Agreements described below). The consummation of the early settlement of the Exchange Offer on October 15, 2025 constituted a change in control under the change in control severance arrangements with each of our NEOs. Accordingly, if an NEO is terminated by the company without "cause" or the NEO resigns for "good reason" within 18 months following October 15, 2025, the NEO will be entitled to the base salary, COBRA, and equity acceleration described in this paragraph.

If the successor to the company does not agree to assume, substitute or otherwise continue any then outstanding equity awards (other than the MIP Awards which are subject to the terms of the MIP Award Agreements described below) at the time of a change in control, then 100% of the then-unvested shares subject to equity awards (both time-based and performance-based) shall fully vest and, if applicable, become exercisable, as of immediately prior to, and contingent upon, the consummation of such change in control, regardless of whether employment with the company (or any parent, subsidiary or successor of the company) continues or terminates unless such termination is due to resignation without good reason or by the company for cause. In the event of such non-assumption, non-substitution, or non-continuation, the number of unvested shares (calculated at "target" performance) subject to Tranche II and Tranche III of the PSUs granted in 2024 would accelerate and vest in full.

Under the MIP RSU Award Agreements, in the event that an NEO's employment is terminated by the company without "cause" or the NEO resigns for "good reason," within the MIP Awards CIC Period, 100% of the then-unvested shares subject to the MIP RSU Awards shall fully vest on the latest of the effective date of the NEO's release or the date of the change in control. If any successor to the company or any affiliate of such successor does not agree to assume, substitute or otherwise continue any then-outstanding MIP RSU Awards at the time of a change in control, then 100% of the then-unvested shares subject to the MIP RSU Awards shall fully vest as of immediately prior to, and contingent upon, the consummation of such change in control.

Under the MIP PSU Award Agreements, upon a change in control, the MIP PSUs will be deemed earned at "target" for any performance period that is incomplete or has not yet commenced, which MIP PSUs will vest in equal installments on the last day of any such remaining incomplete or remaining performance period(s), subject to continued service through the last day of the applicable incomplete or remaining performance period(s). Any earned MIP PSUs for any completed performance period that have not yet vested as of the date of the change in control will vest upon the change in control based on actual performance, subject to the individual's continued service through the date of the change in control. In the event that an NEO's employment is terminated by the company without "cause" or the NEO resigns for "good reason," or in the event that an NEO's employment is terminated due to death or disability, in each case, within the MIP Awards CIC Period, any earned MIP PSUs (determined as described in this paragraph) will vest upon the later of the date of termination or the date of the change in control.

If any successor to the company or any affiliate of such successor does not agree to assume, substitute or otherwise continue any then-outstanding MIP PSU Awards at the time of a change in control, then any earned MIP PSUs (determined as described in the preceding paragraphs) shall fully vest as of immediately prior to, and contingent upon, the consummation of such change in control.

- (3) Under the MIP RSU Award Agreements, in the event that an NEO's employment is terminated by the company without cause or the NEO resigns for good reason, and not during the MIP Awards CIC Period, then the NEO shall vest in a prorated portion of the then-unvested MIP RSUs that are scheduled to vest on the next regularly-scheduled vesting date following the NEO's termination, determined by multiplying (i) the number of MIP RSUs scheduled to vest on the next vesting date, by (ii) the percentage determined by dividing (a) the number of days elapsed from the vesting date immediately prior to the NEO's termination (or the date of grant if there is no prior vesting date) through the date of termination, by (2) the number of days in the period from the prior vesting date (or the date of grant if there was no prior vesting date) through the next vesting date, which vesting will occur on the effective date of the NEO's release.

Under the MIP PSU Award Agreements, in the event that an NEO's employment is terminated by the company without cause or the NEO resigns for good reason, and not during a MIP Awards CIC Period, the NEO shall remain eligible to vest in the tranche of the PSUs next scheduled to vest based on actual performance (and will vest in any PSUs for any completed performance period based on actual performance). For purposes of this table, we have assumed that the tranche of MIP PSU Awards next scheduled to vest based on performance during 2026 vests at "target" performance.

- (4) Under the MIP RSU Award Agreements, in the event of the NEO's death or "disability" (as such term is defined in the MIP Award Agreements), 100% of the then-unvested shares subject to the MIP RSU Awards shall fully vest on the date of death or the effective date of the NEO's release in the case of disability.

Under the MIP PSU Award Agreements, upon the occurrence of the NEO's death or disability, the NEO shall vest in the following: (i) for any performance period that is in-process or has not yet commenced as of the date of termination, a number of PSUs equal to 50% of the target number of PSUs (as adjusted pursuant to any Anti-Dilution Award prior to such date), plus (ii) for any performance period that has ended prior to the date of the death or disability, the vesting eligible PSUs for such completed performance period.

In the event that an NEO's employment is terminated due to death or disability within the period beginning 3 months prior to and ending 24 months following a "change in control" of the company, any earned MIP PSUs (determined as described in the preceding paragraphs upon the occurrence of the change in control) will vest upon the later of the date of termination or the date of the change in control.

- (5) The value for stock option awards is calculated by multiplying (i) the number of unvested shares that would be subject to an acceleration of vesting by (ii) the difference between \$0.82 (the per share closing stock price on December 31, 2025) and the exercise price of the applicable stock options. The value for RSU awards is calculated by multiplying (i) the number of unvested shares that would be subject to an acceleration of vesting by (ii) \$0.82 (the per share closing stock price on December 31, 2025). The value for PSU awards is calculated by multiplying (i) the number of unvested shares that would be subject to an acceleration of vesting (in each case, at "target" performance) by (ii) \$0.82 (the per share closing stock price on December 31, 2025).

- (5) In accordance with the Pay Versus Performance Rules, the company and the company’s peer group total shareholder return (the “Peer Group TSR”) is determined based on the value of an initial fixed investment of \$100.00 on December 31, 2020, through the end of the listed year. The Peer Group TSR set forth in this table was determined using the S&P Food and Beverage Select Industry Index, which we also use in preparing the stock performance graph required by Item 201(e) of Regulation S-K under the Exchange Act for our 2025 Form 10-K.
- (6) We have determined that net revenues is the financial performance measure that, in the company’s assessment, represents the most important financial performance measure used to link “compensation actually paid” to our NEOs, for 2025, to company performance (the “Company Selected Measure” as defined in the Pay Versus Performance Rules). We generate net revenues primarily from sales of our products to our customers across mainstream grocery, mass merchandiser, club store and natural retailer channels, and various food-away-from-home channels, including restaurants, foodservice outlets and schools, mainly in the United States. We routinely offer sales discounts and promotions through various programs to customers and consumers. These programs include rebates, temporary on-shelf price reductions, off-invoice discounts, retailer advertisements, product coupons and other trade activities. The expense associated with these discounts and promotions is estimated and recorded as a reduction in total gross revenues in order to arrive at reported net revenues. Please refer to our consolidated financial statements and the related notes thereto included in our 2025 Form 10-K for more information. We use net revenues as a financial performance measure in determining annual cash STI payments under the Bonus Plan for our NEOs. Linking NEO compensation to net revenues incentivizes revenue growth and rewards efforts to grow and expand our business.

Tabular List of Most Important Performance Measures

In accordance with the Pay Versus Performance Rules, the following table lists the measures that, in the company’s assessment, represent the most important financial performance measures used to link “compensation actually paid” to our NEOs, for 2025, to company performance, as further described in our “Compensation Discussion and Analysis” within the section titled “2025 NEO Compensation Details—Executive Incentive Bonus Plan—STI Cash Incentives.”

Relationship Between “Compensation Actually Paid” and Performance Measures

As described in more detail in the section “Compensation Discussion and Analysis,” the company’s executive compensation program reflects a variable pay for performance philosophy. While the company utilizes various performance measures to align executive compensation with company performance, all of those company measures are not presented in the Pay Versus Performance table. Moreover, the company generally seeks to incentivize long-term performance, and therefore does not specifically align the company’s performance measures with compensation that is actually paid (as computed in accordance with the Pay Versus Performance Rules) for a particular year.

In accordance with the Pay Versus Performance Rules, the charts below illustrate how “compensation actually paid” to the NEOs aligns with the company’s financial performance as measured by TSR, Net Income (Loss) and Net Revenues, as well as a comparison of TSR and Peer Group TSR.

CEO Pay Relative to Median Pay of Our Employees

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K under the Exchange Act, we are required to provide the ratio of annual total compensation of Mr. Brown, our Chief Executive Officer, for 2025, to the annual total compensation of our median employee. The pay ratio included in this information is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K under the Exchange Act.

For 2025, the ratio of annual total compensation of the CEO to the median employee is 454:1.

In 2025, in accordance with Item 402(u) of Regulation S-K under the Exchange Act, we used the following methodology to identify our median employee:

- We collected the annual base salaries and target annual incentives of all regular full-time and part-time employees globally as of December 31, 2025;
- We converted all international currencies into U.S. dollars; and

EXECUTIVE COMPENSATION

- We used annual target total cash compensation (inclusive of base salary, one-time, performance-based cash awards, annual STI incentives at target) as of December 31, 2025 as our consistently applied compensation measure to identify a small group of employees with the same target total cash compensation, all of whom are at about the median of all our employees. We then selected the individual whose actual 2025 compensation was closest to the average of this group.

We calculated 2025 annual total compensation for both Mr. Brown and the median employee using the same definition set forth in the “Summary Compensation Table.” The ratio was then determined by dividing the total compensation as calculated in the “Summary Compensation Table” for Mr. Brown by the total compensation for the median employee. The increase in the pay ratio from 64:1 in 2024 to 454:1 in 2025 was primarily driven by an increase in CEO pay resulting from the increase in value of the equity awards granted to the CEO in 2025 compared to 2024, reflecting the grant date fair value of the RSUs granted as part of the MIP Awards, and the additional one-time, performance-based cash award paid to Mr. Brown.

Equity compensation plans not approved by stockholders ⁽⁵⁾	—	—	—
Total	39,464,342	25.24	14,331,456

- (1) Equity compensation plans approved by stockholders include our Restated Plan and the Beyond Meat, Inc. 2018 Employee Stock Purchase Plan (the "2018 ESPP"). Equity awards granted prior to April 30, 2019 were granted under our 2011 Equity Incentive Plan, equity awards granted on or after April 30, 2019 were granted under our 2018 Equity Incentive Plan, and equity awards granted on or after September 28, 2025 were granted under our Restated Plan. Our 2011 Equity Incentive Plan was amended and restated as our 2018 Equity Incentive Plan, which became effective on April 30, 2019, the day immediately prior to the date on which our registration statement in connection with our IPO was declared effective by the SEC. The terms of our 2011 Equity Incentive Plan continue to govern the terms and conditions of the outstanding awards previously granted thereunder. Our 2018 Equity Incentive Plan was most recently amended and restated as our Restated Plan, which became effective as of September 28, 2025. The administrator has not yet approved any offering under our 2018 ESPP.
- (2) Includes 3,974,337 shares issuable upon the exercise of outstanding options, 35,344,345 shares issuable upon the vesting and settlement of outstanding RSUs, and 145,660 shares issuable upon the vesting and settlement of outstanding PSUs. Excludes 145,660 shares issuable upon the vesting and settlement of outstanding PSUs granted in 2024 if 200% of the applicable performance target is achieved and 27,998,717 shares reserved for issuance under the MIP PSUs at maximum performance. As of December 31, 2025, none of the MIP PSUs were deemed granted for purposes of FASB ASC Topic 718 pending establishment of the applicable performance metrics. As a result, the above table excludes the MIP PSUs as of December 31, 2025.
- (3) Does not include outstanding RSUs and PSUs which do not have an exercise price.

- (4) Includes 10,310,481 shares of common stock available for grant under our Restated Plan and 4,020,975 shares of common stock reserved for issuance under our 2018 ESPP as of December 31, 2025. The number of shares reserved for issuance under our 2018 Equity Incentive Plan was automatically increased on January 1, 2025 by 2,144,521 shares. The number of shares reserved for issuance under our Restated Plan will be increased automatically on the first day of each fiscal year commencing January 1, 2027 and ending on and including January 1, 2035, by a number equal to the lesser of: (i) 3.0% of the Fully-Diluted Shares Outstanding on such date or (ii) such number of shares of common stock determined by the administrator of the Restated Plan. The number of shares reserved for issuance under our 2018 ESPP will be increased automatically on the first day of each fiscal year for a period of up to ten years, starting with the 2020 fiscal year, by a number equal to the least of: (i) 536,130 shares; (ii) 1.0% of the shares of common stock outstanding on the last day of the prior fiscal year; or (iii) such lesser number of shares determined by our board of directors. The number of shares reserved for issuance under our Restated Plan will also be increased automatically as a result of Anti-Dilution Increases.
- (5) Excludes the Beyond Meat, Inc. 2026 Employment Inducement Equity Incentive Plan (the “Inducement Plan”) approved by the company’s board of directors on March 30, 2026. The terms of the Inducement Plan are substantially similar to the terms of the Restated Plan with the exception that incentive stock options may not be issued under the Inducement Plan and awards under the Inducement Plan may only be issued to eligible recipients under the applicable Nasdaq rules. The Inducement Plan was adopted by the board of directors without stockholder approval pursuant to Rule 5635(c)(4) of the Nasdaq Listing Rules. The board of directors has initially reserved 10,000,000 shares of the Company’s common stock for issuance pursuant to awards granted under the Inducement Plan.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information relating to the beneficial ownership of our common stock as of the Record Date (except as otherwise indicated) by:

- each person or group of affiliated persons known by us to beneficially own more than 5% of the outstanding shares of our common stock;
- each of our NEOs;
- each of our current directors and director nominees; and
- all of our current executive officers, directors and director nominees as a group.

The number of shares beneficially owned by each stockholder is determined under rules issued by the SEC. Under these rules, beneficial ownership includes any shares as to which a person has sole or shared voting power or investment power. Unless otherwise indicated, we believe, based on the information furnished to us, that the persons named in the table below have sole voting and investment power with respect to all securities that they beneficially own, subject to community property laws where applicable.

Applicable percentage ownership is based on 463,190,005 shares of common stock outstanding as of the Record Date. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed to be outstanding all shares of common stock subject to options held by that person or entity that are currently exercisable or that will become exercisable, and RSUs that will become vested, within 60 days of the Record Date. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.

The information contained in the following table is not necessarily indicative of beneficial ownership for any other purpose, and the inclusion of any shares in the table does not constitute an admission of beneficial ownership of those shares. Unless otherwise indicated, the business address of each beneficial owner listed in the table below is c/o of Beyond Meat, Inc., 888 N. Douglas Street, Suite 100, El Segundo, California 90245. The information provided in the table below is based on our records, information filed with the SEC, on which we are relying pursuant to applicable SEC regulations, and information provided to us.

DELINQUENT SECTION 16(a) REPORTS

Section 16(a) of the Exchange Act requires our directors, executive officers and persons who own more than ten percent of a registered class of our equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of common stock and other equity securities of Beyond Meat. Officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

Based on our knowledge of stock transactions, our review of copies of reports filed under Section 16(a) and written representations furnished to us, we believe that all persons subject to the reporting requirements of Section 16(a) filed the required reports on a timely basis during the fiscal year ended December 31, 2025.

RELATED PERSON TRANSACTIONS

We describe below transactions and series of similar transactions, since the beginning of our last fiscal year, to which we have been or will be a participant in which:

- the amounts involved exceeded or will exceed \$120,000; and
- any of our directors, nominees for director, executive officers or holders of more than 5% of our outstanding capital stock, or any immediate family member of, or person sharing the household with, any of these individuals or entities, had or will have a direct or indirect material interest.

Indemnification of Directors and Officers

Our restated certificate of incorporation and Bylaws provide that we will indemnify our directors and officers, and may indemnify our employees and other agents, to the fullest extent permitted by Delaware law. Delaware law prohibits our restated certificate of incorporation from limiting the liability of our directors for the following:

- any breach of the director's duty of loyalty to us or to our stockholders;
- acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;
- unlawful payment of dividends or unlawful stock repurchases or redemptions; and
- any transaction from which the director derived an improper personal benefit.

If Delaware law is amended to authorize corporate action further eliminating or limiting the personal liability of a director, then the liability of our directors will be eliminated or limited to the fullest extent permitted by Delaware law, as so amended. Our restated certificate of incorporation does not eliminate a director's duty of care and, in appropriate circumstances, equitable remedies, such as injunctive or other forms of non-monetary relief, remain available under Delaware law. This provision also does not affect a director's responsibilities under any other laws, such as the federal securities laws or other state or federal laws. Under our Bylaws, we may purchase insurance on behalf of any person whom we are required or permitted to indemnify.

In addition to the indemnification required in our restated certificate of incorporation and Bylaws, we have entered into an indemnification agreement with each member of our board of directors and each of our officers. These agreements provide for the indemnification of our directors and officers for certain expenses and liabilities incurred in connection with any action, suit, proceeding or alternative dispute resolution mechanism, or hearing, inquiry or investigation that may lead to the foregoing, to which they are a party or other participant, or are threatened to be made a party or other participant, by reason of the fact that they are or were a director, officer, employee, agent or fiduciary of our company, by reason of any action or inaction by them while serving as an officer, director, agent or fiduciary, or by reason of the fact that they were serving at our request as a director, officer, employee, agent or fiduciary of another entity. In the case of an action or proceeding by or in the right of our company or any of our subsidiaries, no indemnification will be provided for any claim where a court determines that the indemnified party is prohibited from receiving indemnification. We believe that these charter and bylaw provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers.

The limitation of liability and indemnification provisions in our restated certificate of incorporation and Bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against directors and officers, even though an action, if successful, might benefit us and our stockholders. Moreover, a stockholder's investment may be harmed to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable.

Policies and Procedures for Related Person Transactions

Our audit committee has the primary responsibility for reviewing and approving or disapproving "related-party transactions," which are transactions between us and related persons and in which a related person has or will have a direct or indirect material interest. The written charter of our audit committee provides that our audit committee will review and oversee procedures designed to identify related party transactions that are material to Beyond Meat and that our audit committee will review and approve in advance or ratify any related-party transaction.

We have adopted a formal written policy providing that we are not permitted to enter into any transaction in which any related person has a direct or indirect material interest without the approval of our audit committee. In approving or rejecting any such transaction, our audit committee is to consider, among other things, the relevant facts and circumstances available and deemed relevant to our audit committee, including whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related person's interest in the transaction. All related-party transactions in 2025 were approved in accordance with this policy.

2025 Annual Report and SEC Filings

Our consolidated financial statements for our year ended December 31, 2025 are included in our 2025 Form 10-K, which we will make available to stockholders at the same time as this proxy statement. This proxy statement and our annual report are posted on our website at <https://investors.beyondmeat.com> and are available from the SEC at its website at <https://www.sec.gov>. You may also obtain a copy of our annual report without charge by sending a written request to Beyond Meat, Inc., Attention: Investor Relations, 888 N. Douglas Street, Suite 100, El Segundo, California 90245.

Stockholders Sharing the Same Address

The rules promulgated by the SEC permit companies, brokers, banks or other intermediaries to deliver a single copy of proxy materials, or, where applicable, a Notice of Internet Availability of Proxy Materials, to households at which two or more stockholders reside. Each stockholder, however, still receives a separate proxy card if he or she receives paper copies. This practice, known as “householding,” is designed to reduce duplicate mailings and save significant printing and postage costs as well as natural resources. Stockholders sharing an address who have been previously notified by their broker, bank or other nominee and have consented to householding will receive only one copy of our proxy statement and annual report or Notice of Internet Availability of Proxy Materials. If you would like to opt out of this practice for future mailings and receive a separate proxy statement and annual report or Notice of Internet Availability of Proxy Materials for each stockholder sharing the same address, please contact your broker, bank or other nominee. You may also obtain a separate proxy statement or annual report or Notice of Internet Availability of Proxy Materials without charge by sending a written request to Beyond Meat, Inc., 888 N. Douglas Street, Suite 100, El Segundo, California 90245, Attention: Secretary or by calling (866) 756-4112. We will promptly send additional copies of the proxy statement or annual report or Notice of Internet Availability of Proxy Materials upon receipt of such request. Stockholders sharing an address that are receiving multiple copies of the proxy statement or annual report or Notice of Internet Availability of Proxy Materials can request delivery of a single copy of the proxy statement or annual report or Notice of Internet Availability of Proxy Materials by contacting their broker, bank or other nominee or sending a written request to Beyond Meat, Inc. at the address above or by calling (866) 756-4112.

Special Note Regarding Forward-Looking Statements

This proxy statement contains forward-looking statements within the meaning of the federal securities laws. We have based these forward-looking statements largely on our current opinions, expectations, beliefs, plans, objectives, assumptions and projections about future events and financial trends affecting the operating results and financial condition of our business. In some cases, you can identify forward-looking statements by the use of words such as “believe,” “may,” “will,” “will continue,” “could,” “will likely result,” “estimate,” “continue,” “anticipate,” “intend,” “plan,” “predict,” “project,” “expect,” “potential” and variations of these terms and similar expressions, or the negative of these terms or similar expressions. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made and/or management’s good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such difference include the risks discussed in Part I, Item 1A, “Risk Factors,” included in our 2025 Form 10-K, and those discussed in other documents we file from time to time with the SEC. Forward-looking statements speak only as of the date of this proxy statement. You should not put undue reliance on any forward-looking statements. We assume no obligation to publicly update or revise any forward-looking statements because of new information, future events, changes in assumptions or otherwise, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Other Matters

Our board of directors does not know of any other matters to be presented at the Annual Meeting. If any additional matters are properly presented at the Annual Meeting, the persons named in the proxy card will have discretion to vote the shares of our common stock they represent in accordance with their own judgment on such matters.

It is important that your shares of our common stock be represented at the Annual Meeting, regardless of the number of shares that you hold. You are, therefore, urged to vote by telephone, mobile device, or by using the Internet as instructed on the Notice or proxy card or execute and return, at your earliest convenience, the proxy card.
